

Today I would like to tell You about interesting places and cities in America

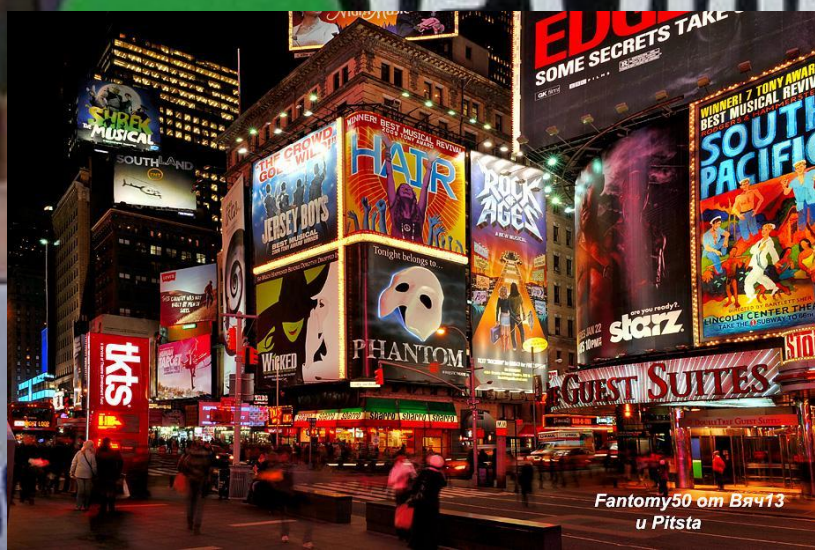

Arizona - 48 state, which became part of the USA. Is located in the South-West of the country. The capital and largest city of the state of Phoenix. A significant part of the territory of the state is in the mountains, plateaus, and deserts. The name of a state is transferred from the Spanish words Indian Pima tribe - "the place of a small stream, in the language of the Aztec tribe "giving birth silver". The capital city of Phoenix, founded as a town on February 25, 1881 on the ruins of an Indian city. The name is associated with the name of Phoenix.

The Sedona, is also located in this state. This magnificent city red rocks, known for their world for its unique beauty and charm. Sedona is located at an altitude of 1400 meters in the zone of high desert of Arizona. It welcomes you in four seasons with mild climate, making it an ideal holiday destination all year round. People from all over the world come here to recover and to enrich your life with new impressions. Why people from all over the world try to get here? The beauty of red cliffs, healing water oak Creek, in combination with the mysterious power of the local places of power, called here "the vortex", make the Sedona spiritual Mecca. People who do not feel and do not even believe in the energy, note that this changes the mood and perception of the world. Many people here are beginning to feel the energy and its impact. Also here is the Grand canyon. This unique and sacred place.
