

Fire in the school

by Maksarova Darisu, 11 “V”

What do we have to do
when the fire starts in the
school?

- **1. Immediately report to a single rescue service by phone**

- **"01".**

- **2. School management, teachers should organize the evacuation of students to a safe place in accordance with the evacuation plan. In this case, use and emergency evacuation outputs. The code is about the life and health of children, it is not necessary to collect all the textbooks and run to the wardrobe. In this situation, you can not lose a minute.**

- **3. In cases of severe smoke, respiratory protection must be provided. It can be water-soaked towels and handkerchiefs.**

- **4. Do not panic at all. If the evacuation routes are cut, under the guidance of the teachers, the guys need to return to the classes, close the door, the ventilation grilles, open the windows and wait for the arrival of the fire departments. The time of arrival in the city does not exceed 5-7 minutes from the time of the report of the fire.**
