hello
JUNE

The summer I spent very funny. In June, I visited the camp "The name of Guli Korolevoy". I was there with my friend Lena. And we especially liked our free time we loved to play balls in the water and even watched movies

July I spent with my mother and aunt in Saratov. We went to swim in the river. We loved shops in Saratov, often walked and ate ice cream. Also we went to the amusement Park, jumped on the trampoline, rode the carousel and even looked on the city from the Ferris wheel.

Hello
August

The first half of August, I spent with my dad in the village. We went to visit our neighbors. We loved to sit and drink tea and ate watermelons. And the second half of August I spent at home, hanged out with friends and prepared for school. It was an intense summer.
