

A detailed illustration of a rolled-up parchment scroll. The scroll is unrolled in the middle, showing a blank space for writing. A quill pen, made of a single feather, is positioned diagonally across the lower right portion of the scroll. The parchment has a warm, yellowish-brown tone with subtle creases and shadows, giving it a three-dimensional appearance. The quill is a similar color with fine details of its barbs.

Dear Artem ,

Thanks a lot for your letter. Sorry I haven't answered earlier but I was really busy with my school.

You ask me about hobbies which are popular with English teens. Well, many teenagers are interested in music and computer games. As for me, my hobby is cooking, but I don't have enough time for my hobby as I've got too much homework. If I had more free time, I'd take up photography. It's really exciting!

It's cool your country has the Olympic Games this year. We watch the Olympic Games in Sochi. By the way, what kinds of winter sports are popular with Russian teenagers? What sports do you go in for? Do you have enough time for sports?

Well, I'd better go now. Mum wants me to help with the housework.

Hope to hear from you soon.

With best wishes,

Mary.
