However, upon seeing the holy Mansi mountains, the shaman of the giants dropped his drum and the entire team froze into the stone pillars.

- We live in the town in the North of the Republic of Komi. This region is rich in its resources of nature, culture, natural phenomena and we are very proud that we have many beautiful parks, forests and rivers. We follow our traditions and customs.

- We live in a small provincial town of Usinsk . Of all towns Usinsk is the best . Thought there aren't museums, theatres, art galleries, shop centers but we are proud of the place we live. Our town is famous for oil and gas. It's important for our country. We like our town for many things: picturesque nature, friendly people, unforgettable events and what not ! Maybe a lot of people of Usinsk want to move in cosmopolitan cities for example Moscow, Saint Petersburg but for me Usinsk will always remain a native city.

- Thanks for watching!!!
