

April 22 - Earth Day

**April 22
is
a special day
around the
world**

The symbol of this day

- ▶ The Earth is ours to enjoy
 - ▶ For every little girl and boy.
 - ▶ But we must always be aware.
 - ▶ That all its beauty we must share
 - ▶ With all the children yet to come,
 - ▶ Who want to laugh and play and run
 - ▶ Around the trees and in the fields.
-
- ▶ So we must keep our planet free
 - ▶ From messy trash and debris
 - ▶ With air that's clean and fresh and clear
 - ▶ For all to breath from year to year.
 - ▶ We must never ever abuse
 - ▶ Our sweet Earth that's ours to use.
 - ▶ -Author Unknown

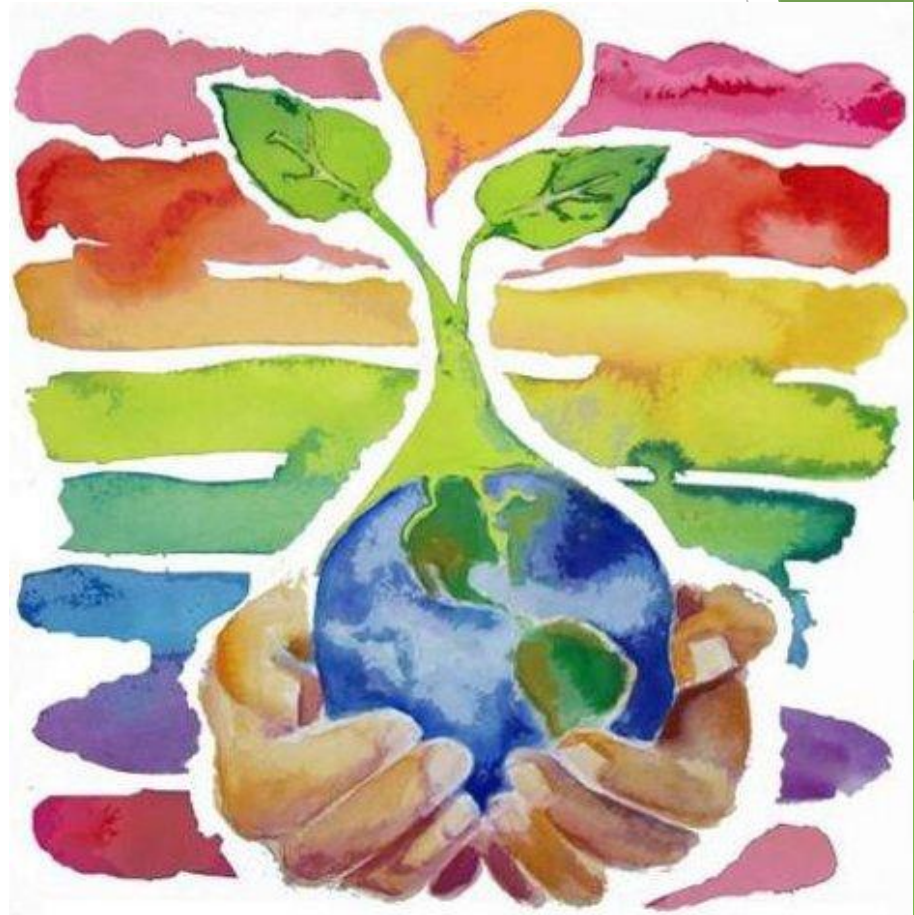

We must help our planet

Everyday is Earth Day

- ▶ *Everyday is Earth Day,*
- ▶ *If it's not cold or wet or hot*
- ▶ *Pitch in to save the planet*
- ▶ *It's the only one we've got.*
- ▶ *-Author Unknown*

They show concern about the threats our planet faces:
destruction of the rain, forest, and holes in the ozone layer,
the greenhouse effect, too much garbage and all forms of
air and water

The Future Is Sitting On Top Of The World

The first
Earth Day
was held

33
years ago,
in April 1970

At that time, in 1970 Americans were just beginning to learn about the problem facing the planet

We celebrate Earth Day every year.
We are discussing many important environmental
problems every day

We are speaking about the environment of our native city; we are planting trees and looking for urgent and necessary measures which should be undertaken to **protect our Earth**

Earth Day's statistics

1882 - declared an official holiday

1970 - over 20 mln joined the action to plant trees

1990 - the holiday became international

1992 - Russia joined the idea to celebrate Earth Day

Together we can save our Earth.

Don't Let This Happen

REMEMBER!!!

- Don't throw the paper
- Put litter away
- Put it in a rubbish bin
- Never break plants and baby trees
- Don't paint on trees
- Don't leave fire
- Don't waste energy
- Organize ecological activity
- Safe energy
- Safe water
- Use paper, not plastic

SAVE NATURE AND ENVIROMENT!!!

We can only change the world by changing men.

Wells

Мир можно изменить,
только изменяя людей.
