# Глагол to be в настоящем времени

Глагол be в настоящем времени имеет 3 формы: am, is, are. В русском языке эти формы имеют значение «быть», «существовать», «иметь место», которая часто опускается.

Barsik is a cat.

He is at college.

My friend is funny.

Но английское предложение без глагола существовать не может. Глагол be называют глаголом-связкой, потому что никакого действия он не выражает, его задача — «связать» слова в предложение. Англичанин сказал бы так:

«Мой друг есть в колледже», «Она есть студентка»,  
«Карандаш есть зелёный» и т. д.
