

Water and air pollution

Olga Tasenyuk, ELT

**Kurchatov School
2018**

Water and air pollution is a very serious threat to our environment. This is the result of human activities:

- releasing poisonous chemicals

Car fumes

Oil spills

**This problem affects people health and
causes water animals to die**

BENZENE

We must:

- ❑ Replace petrol to bio fuel
- ❑ Throw litter into bins
- ❑ Stop dropping litter
- ❑ Fine those who drop litter
- ❑ Provide more garbage bins
- ❑ Follow the 4Rs programme

Save our fragile world!
