Lyceum № 4

There are different and important professions. They are: musicians, accountants, drivers, builders, mechanics, salespersons.

I'm going to be a doctor. I think that this profession is responsible and interesting. I like taking care of people.

People of this profession have to be smart ,
hardworking and responsible. They must
diagnose the case and prescribe the right
treatment.

I want to treat people too. I hope I will become a good doctor. I'm sure it is the best profession for me. My parents think it's a good idea.
