

I would like to present a project :

Welcome to Russia

It was done by Kupryashina A.
and Ivanova C.

Part: Geographical position Resources Culture Moscow

Geographical position:

By its total area Russia is the largest country in the world. It occupies some 17.000 million square kilometers. The country is situated in the North hemisphere on the continent of Eurasia. The territory of Russia is so large that it is situated in 11 time zones.

Russia has many rivers, the longest one is the Volga. The main plains are the Great Russian Plain and the West Siberian Lowland. There are several mountain chains of which the largest and the most important is the Urals, it separates the southern part of Russia from the Asian. About half of Russia's territory is covered with forests and plains.

Resources

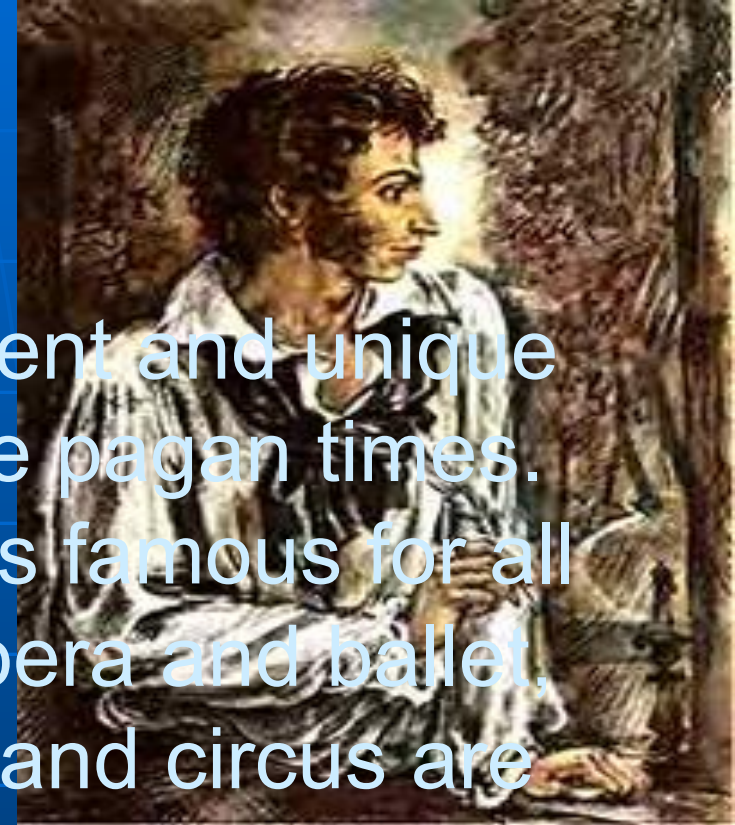

Russia is rich in natural resources, including coal, natural gas, and oil. It is one of few countries to have vast mineral resources in its depths.

Culture.

Russia is a country of ancient and unique culture. It takes back to the pagan times. Now the culture of Russia is famous for all over the world: Russian opera and ballet, music, fine arts, literature and circus are believed to be the finest examples of professionalism and genius. World-known names are Pushkin, Chehov, Krylov, Lermontov, Rublyov, Chernyshevsky and many others.

Moscow.

Moscow, the capital of our country, offers tourists many sights. The Kremlin of Moscow is the heart of Russia. The Mausoleum, the Grand Kremlin Palace, the state Kremlin Palace and the President`s residence are on the territory of the Kremlin.
