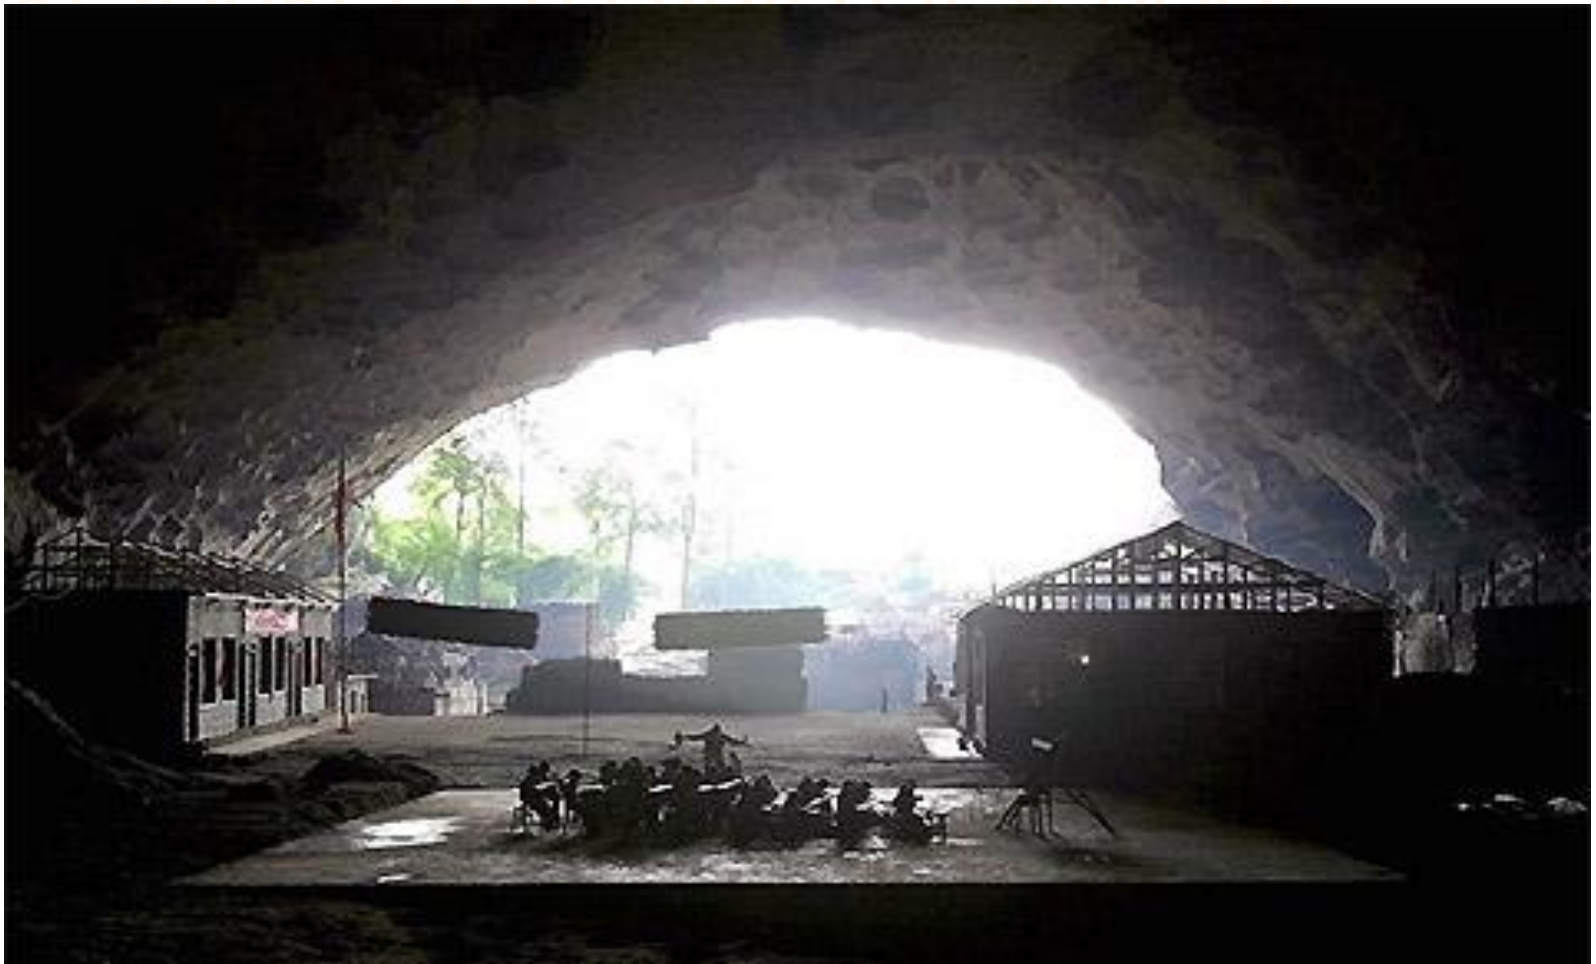
WORLD'S MOST UNUSUAL SCHOOLS

DONGZHONG CAVE SCHOOL, CHINA.

LOCATED IN ONE OF THE POOREST AREAS OF CHINA, THE DONGZHONG CAVE SCHOOL WAS ESTABLISHED TO PROVIDE AN EDUCATION FOR CHILDREN WHO DID NOT ATTEND SCHOOL AT ALL

ITS UNIQUE LOCATION, IN FACT, WAS CHOSEN BECAUSE THE VILLAGERS DIDN'T HAVE THE RESOURCES TO BUILD A SCHOOL



SADLY, THE SCHOOL WAS CLOSED BY THE GOVERNMENT IN 2011, BECAUSE, IN THEIR WORDS, THE COUNTRY, "IS NOT A SOCIETY OF CAVEMEN."

THE PROBLEM WAS SOLVED WITH SOLAR COLLECTORS. TODAY TERRASET IS NOT ONLY THE MOST ENERGY-EFFICIENT SCHOOL IN THE COUNTRY, BUT ALSO ONE OF THE MAJOR TOURIST ATTRACTIONS IN RESTON.

ORESTADA PUPILS ARE HIGH SCHOOL STUDENTS WHO ARE GETTING HIGHER EDUCATION IN THE MEDIA. THE WORD “COMMUNICATION” SOUNDS HERE AT EVERY STEP.

MAGNIFICENT SPIRAL STAIRCASE THAT CONNECTS THE FOUR LEVELS OF HIGH SCHOOL IS CALLED THE HEART OF THE BUILDING. DURING BREAKS, THE STUDENTS LAY ON THE PILLOWS AND LOOK AT THE BRIGHT LIGHTS.
