

Hello!

Glad to see you!

Good afternoon!

It's so nice to see you again!

Look at the screen, please, and try to predict the subject of our lesson.

Do you like these small beasts?

Are you scared of them?

Do you think they are interesting living things?

Some people think that these small living things are very interesting creatures. So today we are going to learn how to talk about these little animals in English.

LOOK, READ AND NAME

ladybird

honeybee

butterfly

grasshopper

dragonfly

ant

spider

Say what

what

BEEES make honey.

LADYBIRDS have black
spots.

SPIDERS make webs.

ANTS carry heavy things.

DRAGONFLIES fly very fast.

BEEES live in hives.

**To talk about all animals,
insects people in a family or a
nation use THE**

- Bees make honey.
- The bee makes honey.
- Bears live in forests.
- The bear lives in forests.
- The Petrovs live in Moscow.
- The Americans live in the USA.

CHOOSE THE RIGHT ANSWER.

1. Which *insect* makes honey?

The bee

A bee

Bees

2. Which *insect* carries heavy things?

An ant

The ant

Ants

3. Which *insect* makes a web?

The spider

A spider

Spiders

Read the text and fill in the observation sheet 1.

Insect information

THE HONEYBEE

The bee is yellow and black. It has six legs, four wings and a small head with two eyes. All honeybees live in nests or hives. They eat sweet nectar from flowers. Bees make honey.
