

Future technology

Mobile gadgets

Portable electronics, and virtual reality

Smart House

A photograph of a smart home setup. On the left, a white circular smart meter is mounted on a wall, with a grey cable running down to a white rectangular smart plug on a windowsill. To the right of the plug is a white wireless router with a blue logo. In the background, a window shows green foliage outside. At the bottom, a portion of a stainless steel refrigerator is visible.

Robotic cleaners, Twitter-refrigerators and other devices that will change our lives

Nanotechnology

Fundamental and applied science
and technology.
