Are there any ecological places in Kazakhstan?

The Aral Sea Disaster

***What can you say about the Aral Sea ?
About the shrinkage of the Aral Sea ?***

Shrinkage of the Aral Sea

***Salt, dust and pollution blown by
wind***

Air

Soil

1957

1977

1982

До 1960-х годов Арал был четвертым по объему закрытым водным бассейном в мире. За 48 лет его площадь сократилась с 68,9 до 18,24 км.

1984

1993

2000

Береговая линия отступила на 150 км. Слабосоленая вода моря превратилась в крепкий рассол, убив более 200 видов флоры и фауны.

Let's watch a video about the ecology in Kazakhstan
