

Tuesday, the twenty-sixth of November Endangered Species

*Everything might come to an extinction
if we don't do an action to save them*

The aims of the lesson

- ▶ Develop comprehensive skills (reading, listening, speaking)
- ▶ Develop critical thinking
- ▶ Speak about the most endangered species and solution of the problems
- ▶ Develop the group and pair work skills

Vocabulary practice

Conservation Status

The conservation status of a species shows us what animals are likely to become extinct. The IUCN has a “Red List” that shows the conservation status of different animals. On their list, animals can be...

1. **Extinct:** All these animals are dead.
2. **Extinct in the wild:** There are some of these animals living in captivity (for example, in zoos) but none survive in the wild.
3. **Critically Endangered:** These animals have a very high risk of becoming extinct soon.
4. **Endangered:** These animals are in danger, and might become extinct soon.
5. **Vulnerable:** These animals might become extinct one day, but are okay right now.

Vocabulary practice

Under threat	In danger
Captivity	Imprisonment
The brink of extinction	The edge of ...
Poacher	Person who illegally hunts animals
Timber	Wood
To graze	To feed
To enforce the law	To ensure

6. There are no countries which have continued commercial whaling.
7. Rhinos are killed for their horn.
8. The elephant hunting is banned and no poachers left.
9. Poisonous chemicals don't cause diseases of marine animals.
10. The best solution of the problem is keeping endangered species in the zoos.

**If man doesn't learn to treat the
oceans and the rain forest with
respect, man will become extinct.**

Peter Benchley

Saving lives by reducing waste.

If you ever see a 1) _____ bottle, thrown away on the grass in the park, or a plastic bag, why don't you try to make a difference, 2) _____ this litter up and put it into a specially 3) _____ trash bin? Every year millions of marine animals die out because of plastic 4) _____. Turtles, fish, whales are all under threat of extinction because of irresponsible human behaviour.

Next time when you go to the store why don't you grab your fabric bag from home 5) _____ of taking a plastic one from the store?

designated

plastic

instead

pick

waste
