- People began to travel ages ago. The very first travellers were explorers who went on trips to find wealth, fame or something else. Their journeys were very dangerous but still people keep on going to the unknown lands.

- If we are fond of travelling we see and learn all sorts of things we can never see or learn at home. Though we may read about them in books and newspapers and see pictures of them at cinema. The best way to study geography is to travel and the best way to get to know and understand the people is to meet them in their own houses.

Thousands of people travel every day either on business or for pleasure. They can travel by air, by rail, by sea or by road.

Of course, travelling by air is the fastest and the most convenient way, but it is the most expensive too.

- ▶ Travelling by sea is very popular. Large ships and small river boats can visit foreign countries and different places of interest within their own country.

- ◆ Nowadays travelling is not as dangerous and much more convenient. Do you want to go somewhere? Hundreds of companies are there to help you.

- They will take care about your tickets and make all the reservations needed. You don't speak the language of country you go to? There are interpreters that will help you.
