My brother got me into it, because he loves sport and needed someone to play with. I didn't like it first, because it was hard and I lost all the time, but now I enjoy it, especially when I beat my brother!
- I love taking photos. Once or twice a month, I go to different areas of the city and look for interesting pictures to take. I've been interested in photography since I was young, when my dad got me a camera for my birthday. I like it because it's creative and I can express myself through pictures. Anyone can use a camera, but you need to use your imagination to find good pictures.
