PETS

It's interesting to know that...

... rabbits can live five years;

...dogs can live fifteen years;

... pigs can live twenty-five years;

...sheep can live twelve years;

...cows can live twenty-five years.

...cats can live thirteen years. There was cat who lived thirty-three years. Cats love their homes. If you get a new flat and take your cat with you to a new flat, it can run away to its old home.

It's interesting to know that...

...horses can live thirty years;

...goats can live fifteen years;

...the mouse can sing;

**...the largest four-legged animal is the elephant.
When elephant sleeps it usually stands;**

There are a lot of white animals. There are white cats, dogs, rabbits, horses, goats, bears, elephants, tigers, white crocodiles. White tigers live only in India. They have blue eyes. White crocodiles live in South America in the Amazon river.

Interesting facts about the care of pets

A dog is the most friendly of all pets. When he is a puppy, teach him to answer to his name, to understand you, to help you, to do what you tell him. Take him for a walk, give him two good meals a day. He enjoys bones. Clean him, wash him with warm soapy water.

A parrot is one more interesting pet. You can teach him to talk and to sing songs. He is very tame. This gay bird can sit on your hand and eat out of it. He needs a clean cage. You must always keep it clean. Give him food which you can buy at a pet shop. Remember to cover cage with a cloth at night.

A cat enjoys milk and fish. When she is a kitten, teach her. Give her warm place at home and keep her indoors at night. Cats like when you pat them.

A rabbit makes an interesting pet. He needs a good clean home. Give him food two times a day, morning and evening. Rabbits like to eat vegetables. Clean the rabbit with warm water, but never hold him by the ears.
