Teacher:

- Ladies and gentlemen! We are welcome you to London!

You should visit some places of interest of London. Use a tourist map. At every station you will find a guide who will tell you some information. Try to understand it and remember. I will wait for you at the last station! Good luck!

(Учащиеся расходятся по разным станциям- достопримечательностям, пользуясь картой).

Station 1- The Tower of London Guide №1:

The Tower has been a castle, a palace, and a prison during its long history. It's one of the most popular museums nowadays. The great central tower, White Tower, was built around 1090 by William the Conqueror. In the Tower you can see the Crown Jewels of England

Station 2: “Big Ben”

Guide №2:

The clock tower is over a hundred meters high and it is home to “Big Ben”.

The clock itself is huge. It is almost 7 meters in diameter and the minute hand is over 4 meters long.

Station 3: Buckingham Palace Guide №3:

Now we are at Buckingham Palace. It's London residence of British monarchs. Originally built in 1703 for the Duke of Buckingham.

Now it's the London home of Queen. When the flag is flying on the top she is home. The colourful ceremony of Changing Guards is performed daily in the forecourt at 11.30 a.m.

Station 4: The Houses of Parliament Guide №1:

Nowadays it is the place where the Parliament meets. If the British flag is on the tower it means that the Parliament is working at the moment.

Station 5: Trafalgar Square

Guide №2:

Trafalgar Square is the heart of modern London. It was named in memory of the victory of the English fleet over the French in the Battle of Trafalgar under the command of admiral Nelson who lost his life in that battle.

Station 6: Westminster Abbey

Guide №3:

It is one of the most famous and beautiful churches in London. It is very old too. It is more than nine hundreds years old. There are so many monuments and statues there. Many English kings and queens are buried there. Westminster Abbey is famous for the Poet's Corner too. Many great writers are buried there: for example Charles Dickens and Rudyard Kipling. The Abbey with its two towers is really wonderful.

Station 7: ST Paul's Cathedral

Guide №1:

It's the biggest cathedral of the Church of England; it was designed by Christopher Wren and was constructed between 1675 and 1710. The present building replaced Old St. Paul's, which had been completely destroyed in the Great Fire of London. Many eminent persons are buried in St. Paul's, including Lord Nelson, the Duke of Wellington and Christopher Wren himself.

Station 8: Madam Tussaud

Guide №2:

Madam Tussaud's Exhibition was opened on its present site in Marylebone Road in 1884. Many of the original models made by Marie Tussaud of her great contemporaries, such as Voltaire, Benjamin Franklin, Sir Walter Scott are still reserved.

Teacher:

- That's all! Now are you ready to answer my questions?

1. Why is the Tower of London so special?
2. What is Buckingham Palace today?
3. For whom it was built?
4. What have you learnt about St. Paul's Cathedral?
5. Who was buried there?
6. What other museums in London do you know?

Teacher:

- Please make up the presentations about London and its Places of interest.

Обе группы детей создают презентации и обмениваются информацией.
