Ms. Lawrence enough constitution though at teenage age her agents forced to grow thin that she could receive a desirable role. Now Jennifer is ready to kill any who will say the word "diet" near her. The young actress one of the few who doesn't put a lot of effort to play a certain role, and it is grateful for it to the talent given by nature. Jenn often appears on public, but in 7 years, says that *"despite the fact that, how many earns by the favourite business, it is difficult not to regret about it when the rack of paparazzi pursues you"*. Lawrence the kind and sympathetic person, it isn't ill star fever and on a scene (during interview) behaves simply and sincerely.

"Its counter — it to be shocking, a little near and simple-minded, and it is remarkable, the talent" is for this purpose necessary — Josh Hatcherson, her colleague according to the movie "Hungry Games" speaks.

In free from work the actress draws time, knits sweaters, is engaged in surfing and plays a guitar. Also Ms. Lawrence says that in free time likes to spend time with friends and to look "Desperate Housewives".

About itself - to stay-at-home Jennifer speaks so:
"If I appear at a party, after eleven evenings I start thinking of the sofa. And that I pass a new series of reality show about Kardashyan's family, for me it is a stress".

In one of Jenn's interview she told about the opinion on an actor's profession: *"Perhaps it will sound roughly, but it seems to me, an aktor- such nonsense. When me ask as I manage not to think no mall of oneself, I answer: "And than me to be proud? I after all don't rescue people from death". There are doctors who save lives, firefighters who enter into burning buildings. And I only play at cinema. It is silly"*.

I love Jennifer Lawrence as idol that it even
being the popular actress, remains the
ordinary person without any star whims.
She is a very good man with excellent sense of
humour and tender heart.

Thank you for a revision!
