

COMPUTER

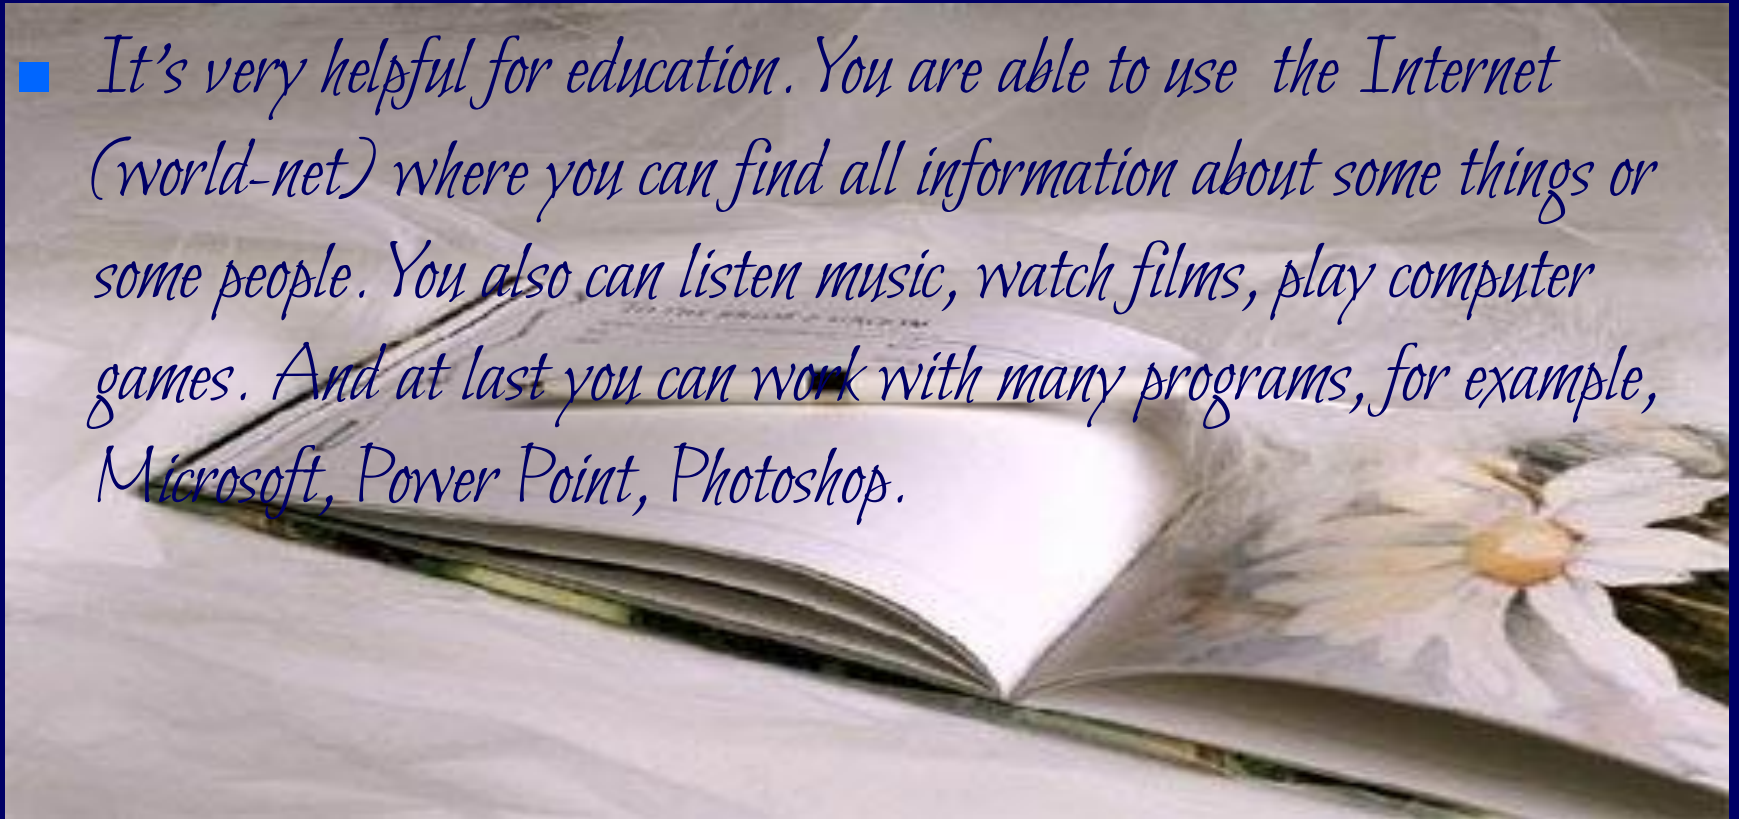

Made by Julia Kolchag
and
Maxim Galtsev
Form 10-B

*I can't imagine my life without
computer.*

my

- *It's very helpful for education. You are able to use the Internet (world-net) where you can find all information about some things or some people. You also can listen music, watch films, play computer games. And at last you can work with many programs, for example, Microsoft, Power Point, Photoshop.*

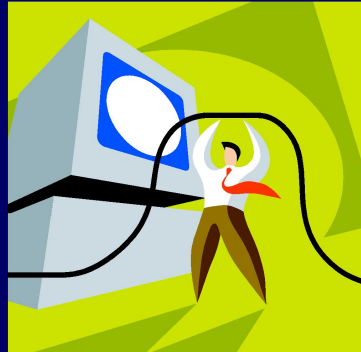

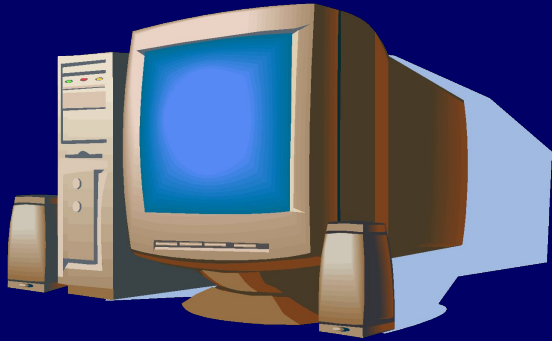

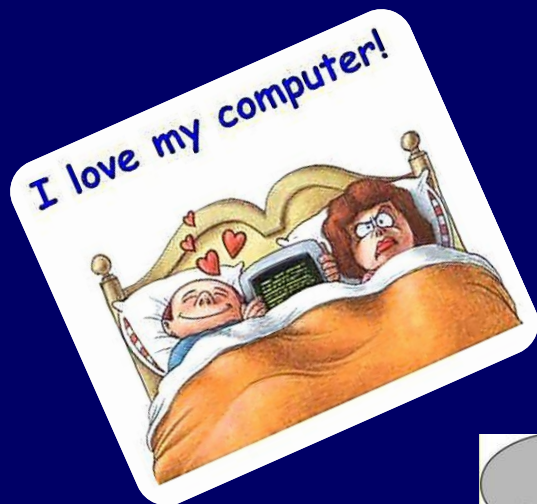

ADDICTED?

- Many people prefer talking with friends, partners agency ICQ. It is very convenient for any business, friendship, pen-friendship. But there are some negative things. For example, health risk like vision and posture. There are many unsafe sites and programs. The most popular one is an addictive, especially for teenagers.

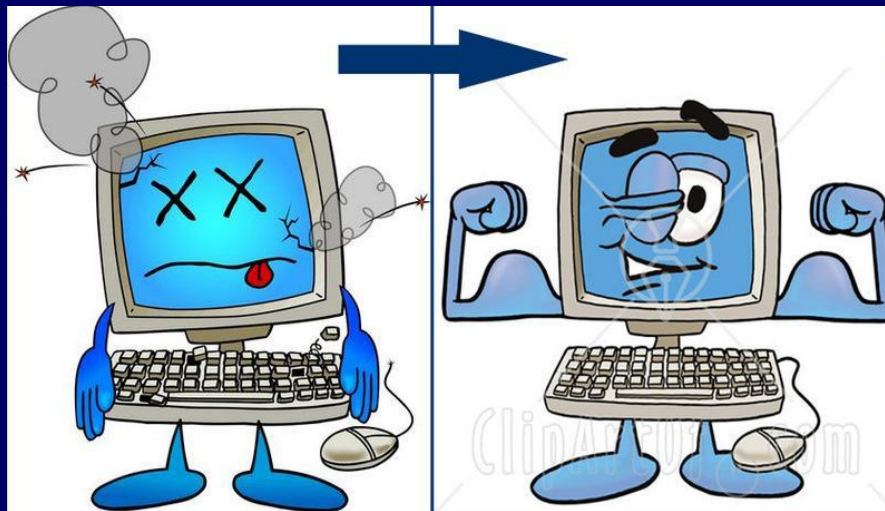

We think that our future will completely depend on modern computer technology!

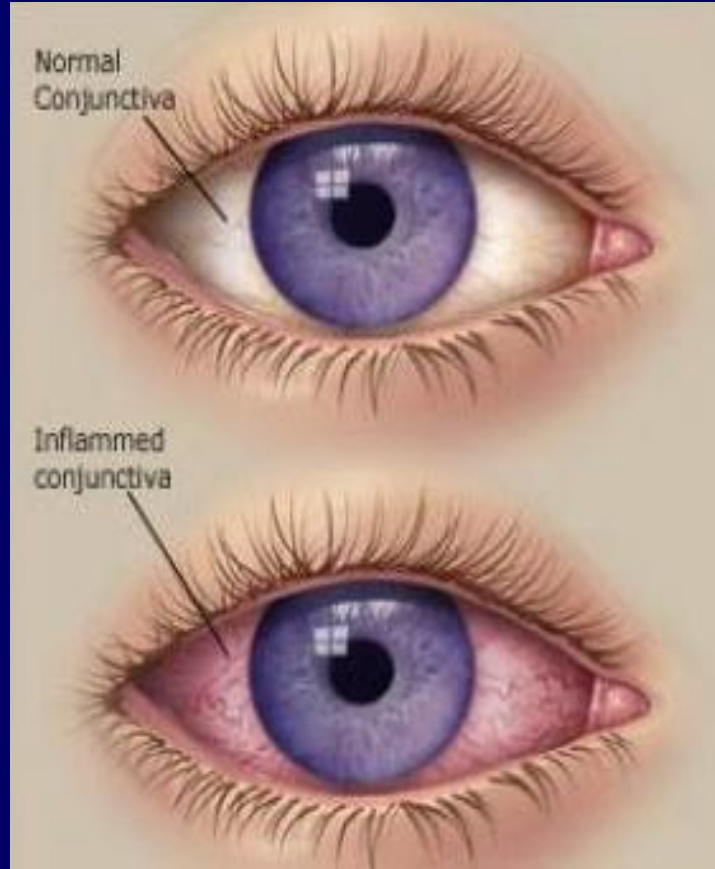

Also we have some pros . Such as convenience,
entertainment , communication and educational.

Computers are a
necessary part of
modern life

*We must use computers correctly
and don't get carried away!*
