Neological problems in Vladivostok.

The plan of the project:

➡ Problems

➡ Ways of the decision

➡ Conclusion

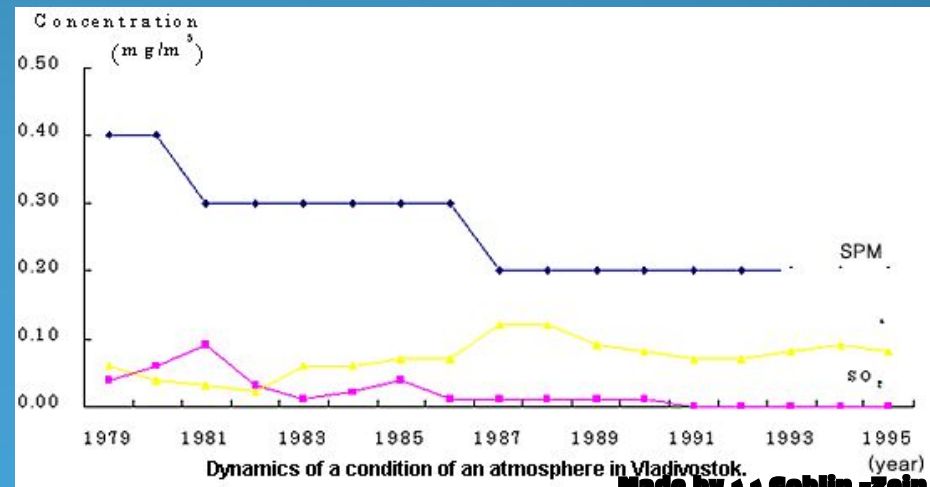

But there is also other, more gloomy party = (

The industrial wastes pollute our waters = (

The harmful gases destroy our atmosphere = (

The decisions of problems

Pollution of our waters

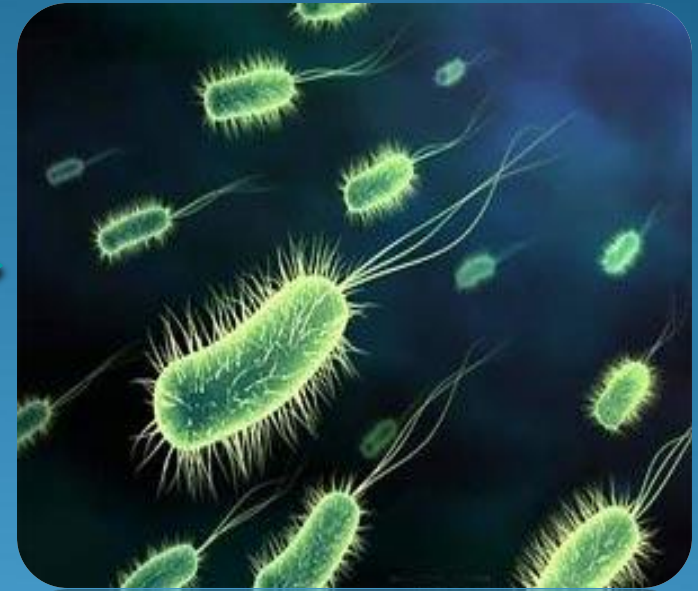

Pollution of our air

Pollution of our ground

Recycling of rubbish

The scientists have created < < Nanobacteria > > destroying rubbish

Clearing of water

Construction of stations for clearing water

Is invalid pollution of air

Electrical automobiles without fuel

Result of presentation:

To us such city is not necessary!

THANK FOR WATCHING!
