Perfume Lithuania

- ▣ Lithuania is pioneering a new type of national symbol - perfume.
- ▣ “We wanted to create something special to represent Lithuania Lithuanian and character, “ said expert, who had the idea of the project.

- Perfume” Lithuania “will be, therefore, a scientist mixing sandalwood, cedar and musk , aiming to be an allusion to Lithuanian language Indo-European origin and the strength of national character. “For Lithuanians to recognize the fragrance, I added fragrance firewood, which may be associated with pagan rituals, and the moss and flowers of the forest.”
- Аромат «**Lithuania**» - это смесь тонов сандалового дерева, кедра и мускуса, которые отражают индоевропейское происхождение литовского языка и силу литовского характера. А чтобы литовцы ассоциировали себя с композицией, в неё добавлены оттенки костров, которые напоминают о языческих ритуалах, а также тона мха и диких цветов.
