

GOBI BEARS IN DANGER

Gobi bears are special animals, because they are the only bears that can live in the desert. Gobi bears can run and ride a bike. They live in the Gobi desert in Mongolia. The sad thing is that there are only fifty Gobi bears these days. They can't find food or water easily. Gobi bears love to eat fish, berries and meat. Bears are brown.

Let's help Gobi bears.
