

Where do people live?

Some people live in the city
Where the houses are very tall.

Some people live in the country
Where the houses are very small.

But in the country where the houses are
small

The gardens are very big.
And in the city where the houses are tall
There are no gardens at all.

The country and the city

Countryside

In the country gardens are the biggest
In the country houses are the smallest
In the country rivers are the cleanest
In the country children are the happiest

City

In the city houses are the tallest

In the city street are the longest

In the city bridges are the biggest

In the city parks are the nicest
