

Health and fitness.

A sound mind is in a sound body

Answer the questions.

- Health is considered one of the most precious things in people's life. How can you explain that?
- What should people do to keep healthy?
- What do you personally do to keep healthy?
- What makes people happy and healthy?
- What makes people aggressive?
- Are aggressive people dangerous for our society?
- Whom can we call an optimist?
- Do optimists have a cheerful character?
- Are positive emotions good for our health?
- How do bad emotions influence our health?
- Is healthy food important for our health?
- What else is good for our health?
- Do you like friendly people?
- Are you always friendly to each other?
- Why is it important to be friendly and respect other people?
- Is sport important for our health?

Prioritize the ideas about reasons of healthy life by your views. Which idea seems the most important to you and why?

- ***Eat healthy food!***
- ***Eat vitamins!***
- ***Do some sport or regular physical exercises!***
- ***Avoid stresses!***
- ***Avoid drugs, drinking and smoking!***
- ***Be close to nature!***
- ***Take care of your teeth!***
- ***Sleep enough!***
- ***Don't work on a computer too long!***
- ***Don't watch TV too long!***
- ***Avoid synthetic materials!***
- ***Be friendly!***
- ***Live with pleasure! Enjoy your healthy way of life!***

TOP 10 Healthiest Foods

#1 Berries
Berries are extremely rich in antioxidants which help protect the cells in our bodies from damage and therefore from diseases like cancer. Among other things they are also an excellent source of Vitamin C and soluble fiber. Blueberries might help reverse the short term memory loss that often comes with aging.

#2 Broccoli
Broccoli (and other cruciferous vegetables like cauliflower and cabbage) helps fight cancer, especially breast, colon and lung. It boosts the immune system. Broccoli also contains antioxidants and a substance called sulforaphane, which research is showing to be a powerful cancer fighter and preventer.

#3 Citrus Fruits
The citrus bioflavonoids in oranges, lemons, limes and grapefruits have anti-cancer and antioxidant properties. Many of these citrus bioflavonoids have also been shown to have anti-inflammatory and blood clot inhibiting abilities.

#4 Garlic
Numerous studies have shown that regular consumption of garlic can lower our blood pressure. It also prevents the blood from being overly sticky and decreases LDL cholesterol (the "bad" one) while increasing the good HDL cholesterol.

#5 Nuts
Walnuts are an excellent source of omega-3 fatty acids, a special type of fat that is essential for our bodies, but that the body cannot produce. Omega-3 essential fatty acids protect us against heart disease. Almonds are also known for their ability to help lower LDL cholesterol levels.

#6 Oats
Oats also help reduce cholesterol. Research shows that one bowl of oatmeal per day can reduce cholesterol by up to 23%. Oats are also considered an excellent grain for diabetics as they have less impact on blood sugar levels than some other grains.

#7 Salmon
The Omega-3 fatty acids in salmon and other fatty fish may help prevent heart disease and stroke by lowering the body's rate of blood clotting.

#8 Spinach
Spinach's secret weapon, lutein, makes it one of the best foods in the world to prevent cataracts, as well as age related macular degeneration, the leading cause of preventable blindness in the elderly.

#9 Tomatoes
Tomatoes contain high levels of lycopene. Lycopene is a powerful antioxidant and as such helps to protect the cells in our bodies from damage.

#10 Turkey
Turkey is one of the leanest protein foods and is low in calories, making it an excellent healthy food choice. Turkey also contains selenium which has been shown to inhibit cancer development, improve the immune system, and aid in the metabolism of our thyroid hormone.

Healthy food.

- How many meals a day do you have?
- What are your preferences in food?
- Do you eat fast food?
- Is the question: to be or not to be a veggie actual for you?

What is your diet?

- Diets
Proper diet forms the basis of man's vitality, vivacity, and longevity. Healthy eating does not mean giving up all your favorite foods; it's all about choosing foods wisely, preparing meals in a healthier way.
- Well-balanced diet is the key to good health. Aim to eat food from each following food groups each day:
 - Starchy foods- bread, rice, pasta, potatoes, cereals, etc.
 - Dairy products- cheese, milk, yogurt, etc.
 - Meat, Poultry- fish, and alternatives including lentils beans, nut products, and eggs.
 - Vegetables & Fruits- broccoli, carrots, apples, strawberries, etc.
- Eating a variety of foods from each of these groups should ensure that your body gets all the necessary vitamins and minerals you need and will help you maintain a healthy well balanced diet.

Look at the diagram below and say:

- **Do you consider yourself to be a healthy person? Why?**
- **How often do you fall ill?**
- **What illnesses and conditions have you experienced?**
- **What problems can result from an unhealthy lifestyle?**

Describe the first photo and answer the questions.

What diseases can only be treated in hospital?

Is being a surgeon an attractive profession? Why?

What are the advantages and disadvantages of being treated in hospital?

Have you ever been treated or visited anyone in hospital? Describe your experience.

Describe the second photo and answer the questions:

Are old people in Russia generally fit and healthy?

What are typical health problems of old people?

What should we do to remain fit when we are old?

Put the words into the logical order: from the least dangerous diseases to the most dangerous ones.

Flu

AIDS

Stroke

Cancer

Alcoholism

Asthma

Depression

Pneumonia

heart attack

Cold

hay fever

rheumatism

Match the symptoms with the illnesses. One symptom can be matched with several illnesses.

- *symptoms*
- have a headache
- I feel anxious
- I've got chest pains
- I'm losing weight
- I've got a cough
- I've got painful joints
- I feel dizzy
- I've got hallucinations
- I have very high blood pressure
- I've got difficulties in breathing
- I'm sneezing
- I've lost consciousness
- I've got fever
- I've got a sore throat
- I feel breathless
- I've lost my appetite

<i>illnesses</i>
flu
AIDS
stroke
cancer
alcoholism
asthma
depression
pneumonia
heart attack
cold
hay fever
rheumatism

Fill the table in using the words below:

Antibiotics, aspirin, bandage, surgery, vitamin C, mint tea, plaster, rest
massage, acupuncture, ointment, pain killer, cold water

- | <i>Problem</i> | <i>Symptoms</i> | <i>Treatment</i> |
|------------------|-----------------|------------------|
| • allergy | | |
| • broken arm | | |
| • sunburn | | |
| • migraine | | |
| • food poisoning | | |
| • a cut | | |
| • appendicitis | | |
| • a burn/a scald | | |

Match the adjectives with the nouns to complete a word combination.

Make up a sentence of your own with every word combination .

- *Adjective*
- Poor
- Infectious
- Sore
- Blood
- Lung
- Unhealthy
- Mental
- Nervous
- Fatal
- health

<i>noun</i>
disease
cancer
lifestyle
illness
insurance
pressure
throat
health
breakdown
disease

Match the verbs with word combinations to make up set expressions

- *Verbs*
- take
listen to
examine
operate
prescribe
vaccinate
put
x-ray
take out
fill

<i>word combinations</i>
on you
your tooth
you against a disease
your arm in plaster
your arm
your tooth
your temperature, pulse, blood pressure
medicines
you
your chest

Match the doctor's prescriptions with the remedies.

- *Remedies*
- ointment
- plaster
- vaccination
- injection
- sleeping
- pills
- antibiotics
- physiotherapy
- nose drops

<i>doctor's prescriptions</i>
take one half an hour before going to bed
take one every 6 hours for 7 days
rub a little bit in every few hours
take a few drops three times a day
you'll have to get a shot at least 3 weeks before going to Africa
you need to take a message and exercises every other day
we'll give you a shot now and another one tomorrow
your broken arm needs to be treated in hospital

Make a dialogue .

- **Patient:** Is the dentist seeing patients now?
- **Nurse:** Yes. What's the trouble?
- **Patient:** I have a toothache.
- **Problems with teeth:**
- I lost a filling.
- I have bad tooth here.
- I have a swollen gum.
- Please, fill this tooth.
- Extract this tooth.
- Treat this tooth.
- Smooth the pain.
- I need the tooth stopped.
- I need a crown (bridge) fitted on a tooth.
- I want a tooth removed.

Complete the dialogue with the words in the box.

Lesser, knee, make, matter, over, suffering, two, imaginable, promise, indigestion, three, things, this, caught, little, sore, rest, sneezing, nervous, other, care, long, clear, feel, anything, examine, deeply, mouth, lungs

• A visit to the doctor.

- Well, what's the _____ with you, Mr. Walker?
- You'd "better ask me what is not the matter with me, doctor.
- I seem to be _____ from all the illnesses _____: insomnia; headaches,
- _____ constipation and pains in the stomach.. To make _____ still worse, I've _____ a cold, I've got a _____ throat, and I am constantly _____ and coughing. To crown it all, I had the accident the _____ day, , hurt my right shoulder, leg and _____, and nearly broke my neck. If I take a _____ walk, I get short of breath. In fact, I _____ more dead than alive.
- I am sorry to hear that. Anyhow, I hope things aren't as bad as you, imagine. Let me _____ you. Your heart, chest and _____ seem to be all right. How open your _____ and show me your tongue. Now breath in _____ through the nose... There doesn't seem to be _____ radically wrong with you, but it's quite _____ that you're run down, and if you don't take _____ of yourself, you may have a n _____ break down and have to go to hospital, I advise you, first of all, to stop worrying. Take a long _____, have- regular meals, keep to a diet of salads and fruit, and very _____ meat. Keep off alcohol. If possible give up smoking, at least for a time. Have _____ tonic made up and take two table spoonfuls _____ times a day before meals. If you do this I can _____ you full recovery within _____ or three months.
- And if don't doctor?
- Then you'd better _____ your will, if you haven't yet done so!
- I see. Well, thank you, doctor. I shall have to think it _____ and decide which is the _____ evil - to follow your advice or prepare for a better world!

Right answers.

- A visit to the doctor.
 - Well, what's the matter with you, Mr. Walker?
- - You'd "better ask me what is not the matter with me, doctor.
- I seem to be suffering from all the illnesses imaginable:
insomnia; headaches,
- indigestion constipation and pains in the stomach.. To make things
still worse, I've caught a cold, I've got a sore throat, and I am constantly
sneezing and coughing. To crown it all, I had the accident the other day, ,
hurt my right shoulder, leg and knee, and nearly broke my neck. If I take a long
walk, I get short of breath. In fact, I feel more dead than alive.
- - I am sorry to hear that. Anyhow, I hope things aren't as bad as you, imagine. Let me
examine you. Your heart, chest and lungs seem to be all right. How open
your mouth and show me your tongue. Now breath in deeply through the
nose... There doesn't seem to be anything radically wrong with you, but it's quite
clear that you're run down, and if you don't take care of yourself, you may
have a nervous break down and have to go to hospital, I advise you, first of all, to
stop worrying. Take a long rest, have- regular meals; keep to a diet of salads and
fruit, and very little meat. Keep off alcohol. If possible give up smoking, at least for a
time. Have this tonic made up and take two table spoonfuls three times a day
before meals. If you do this I can promise you full recovery within two or
three months.
- And if don't doctor?
- Then you'd better make your will, if you haven't yet done so!
- I see. Well, thank you, doctor. I shall have to think it over and decide which is the
lesser evil - to follow your advice or prepare for a better world!
