

Landscape paintings

Our life seems to be impossible without art. It really occupies an important part in our daily life. Also it makes our life brighter, richer and more intellectual. So, art units different people, influences the development of personality, makes our world richer, feels our soul with different feelings.

Landscape art is the depiction in art of landscapes, natural scenery such as mountains, valleys, trees, rivers, and forests.

Sky is almost always included in the view, and weather is often an element of the composition.

Painters depict a real or an idealized scene. Many painters focus their attention on the atmospheric effects, dissolved into a haze of colour and light, to express their feelings for nature's grandeur and immensities.
