

Definition of Metonymy

- a figure of speech in which a thing or concept is not called by its own name, but by the name of something intimately associated with that thing or concept.
- a figure of speech in which a part represents a whole or a whole represents a part.

 The words "metonymy" and "metonym" come from the Greek: μετωνυμία, metōnymía, "a change of name"

 Metonymy may be contrasted with metaphor. Both figures involve the substitution of one term for another. In metaphor, this substitution is based on some specific similarity, whereas, in metonymy, the substitution is based on some understood association. The bottle for alcoholic drink.

The press for journalism.

A skirt for a woman.

Mozart for Mozart's music.

The Oval Office
