

My dream-town

My city is divided in two halves.
In one half of the city, there are many good
cottages with large roofs.

The cottages have a beautiful yard with flowers and trees in front of them. There is a lovely two-storey house, too.

They all have large balconies where people drink tea in the summer and rest.

In the other half of the city has a high-rise building, offices and skyscrapers.

People go to the offices and work 2 days, and the rest 5 days and when they rest, they are sent in the first part of the town.

In this half is also a relaxation area, this squares, museums and amusement parks.

At night it is lit wonderful colors

**THE
END**
