

My ideal
school day.

Prepared by Фамилия Имя

1. Getting up.

Who wants to wake up early in the morning? I guess, nobody. That is why the ideal school day begins with ideal morning. Let's start our perfect day at 9 o'clock.

2. The school bell sound.

Everybody hates this awful sound which is heard when the lesson begins. I would change it. Well, let me think...

So, here are the variants of the best sounds.
Let's listen to them;)

(SOUND EFFECT)

3. Lessons

That is a very interesting moment. There are a lot of questions:

- When should they start?
- How many lessons I want to study?
- What subjects I would like to have?

You will know about it on the next page.

The lessons start at...

...10 o'clock. I think, it is the ideal time. I had enough time to sleep and have more energy to be active the whole day.

Time / period	Monday	Tuesday	Wednesday	Thursday	Friday
	I want to study...				
	...4 lessons: 2 lessons before lunch and 2 after it.				
	Oh, lunch. I've almost forgotten about it. My stomach is saying that it's time to have a meal.				

On my best school day I want to have...

Geography

PE

Art

Class hour

4. After class activities.

When the lessons are over it's time to do after class activities. I want to attend basketball, football and volleyball club. It takes about 3 hours but I have enough time and energy. Remember that I had enough sleep 😊

So, that is my ideal school day.
