Last Sunday I went for a shopping in local supermarket for products

Why Do I Choose A Supermarket?

◦ The first and the main thing are reasonable prices. And it's a place where I can find all products I need, I may find a lot of brands of one product and choose the more reasonable for me and my pocket. And if I can't find something I can ask an assistant for a help.

Before shopping I always do a shopping list

○A bunch of bananas

○Cereals

○Butter

○Frozen mixed vegetables

○Spaghetti Noodles

○Chicken pieces

○ Firstly, I went to a meat section and took a 1kg of chicken pieces in a basket . Secondly, I headed for spaghetti noodles. On my way buying cereals, I got one problem : I couldn't find the cereals of brand I wanted, so I asked an assistant to help me. Then he said that they didn't have such cereals on a sale, because it was sold out yesterday . I found it sad, but I hadn't time for this. Next to cereal section, I went for a butter, frozen mixed vegetables and a bunch of bananas. Fortunately, I haven't met any problem with them.

Further, I joined the queue at the check-out. I spent much time standing in the queue, because it was Sunday, so a lot of people were there. I paid for my purchases by cash and went home.
