

MY LAST SHOPPING

The place of shopping

As far as I know , last time I did my shopping at the market. I like do my shopping at the market because it has a wide choice of goods. There are sport goods, leather goods, food and many other rollet stalls. In my opinion a market is good for people who stock up for some holiday.

What I bought there and why

At the market I bought a lot of items .
Mostly at the market I buy clothes, and
everything else is bought by my mother.

The price that I paid

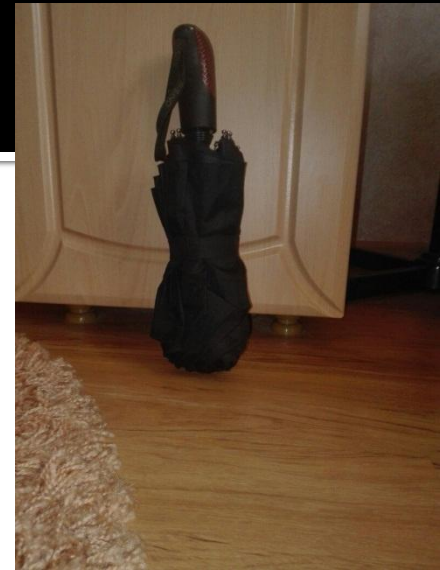

Last time I bought jeans (15\$), a T-shirt (15 \$), a bag(25\$), sneakers(30\$) and some cosmetics(7\$). Also in a haberdashery I bought an umbrella(10\$) because I had lost it. In a jewellery I bought earrings(2\$) for a low price because I was bargain with a saleswoman.

The way I paid for my purchase.

I bought all the things at the market and consequently I didn't get receipts and I can't have an opportunity to refund any product or use a plastic card , so I paid in cash.
