Тема урока «We must protect our environment»

Преподаватель
Английского языка
Милешина Л.Л.

The background of the slide is a solid blue color. In the bottom right corner, there are several faint, concentric circles that resemble ripples on water, creating a decorative effect.

Задачи уроки

□ Образовательные задачи:

- - учить учащихся пользоваться изученной лексикой;
- - обсуждать проблемы по теме.

□ Развивающие задачи:

- развивать навыки чтения, монологической речи;
- - учить решать самостоятельно проблемы на основе изученной лексики.

□ Воспитательные задачи:

- - прививать чувство любви и бережного отношения к окружающей среде;
- - чувство ответственности за место, где ты живёшь.

Фонетическая зарядка

- [t] – [d] – tidy, protect, destroy, damage, reduce, plant, pollute, defence, waste,
- [r] – draw, tree, destroy, forest
- [ɜ:] – bird, hurt, disturb, first, nature
- environment
- ecology
- to pollute (air, water, land)
- to save (animals)

What happens when rules are broken? Match the statements with numbers.

- ☐ Baby trees are damaged.
- ☐ Birds are disturbed.
- ☐ Trees are painted.
- ☐ The air is polluted.
- ☐ The water is polluted.

- ☐ The place isn't cleaned up.
- ☐ The countryside is cared for.
- ☐ Litter is thrown away.
- ☐ Animals are hurt.
- ☐ The fire is left.

Ecology

The Fragile Planet

What does the word “Ecology” mean?

This word came from the Greek
“oikos” which means “home”.

“Home” includes:

- Its population
- Our whole planet
- Nature
- Animals
- Birds
- Fish
- Insects
- All other living beings
- And even the atmosphere around our planet.

What is environment ?

It means what is around us.

Some people live in a town environment, for others their environment is the countryside.

The air we breathe, the soil on which we stand, the water we drink are parts of the environment.

sh h

Nearly
was born of a dusty cloud drifting in
our planet has become home to a rem
variety of life forms, from microscopic
bacteria to majestic redwoods. But life's
triumph hasn't always been smooth.

Place your icons here >>

The air we breathe

- Every year world industry pollutes the atmosphere with about 1000 million tons of dust and other harmful substances.
- Big cities suffer from smog.
- Cars with their engines have become the main source of pollution in industrial countries.

www.topwallpapers.com

The water we drink

- ❑ Two-thirds of the world's surface is water. Many seas are used for dumping industrial and nuclear wastes. Many rivers and lakes dry up or are poisoned too.
- ❑ Fish dies in the lakes, rivers and seas.
- ❑ If people drink this water, they can get ill or even die.

FISCHE
VERSENKEN

The land we live on

- ❑ People cut down trees and many birds and animals can't have homes in their usual places and they begin dying out.
- ❑ As a result some species of animals, birds, fish and plants have disappeared and keep disappearing.

Environmental protection. What should people do to survive?

The time has come to save our planet, to protect people, animals and plants from dying.

First of all countries should have strong laws to control pollution, to protect animals and plants.

Governments should also find ways to recycle things. They should build recycling factories.

22 April Earth Day

День Земли April 22
– people demonstrate their concern for a better environment. They plant trees and flowers, feed birds and animals. They also clean the countryside and put litter in the bin. It was first held in 1970.

Greenpeace

Гринпис an international environmental pressure group, started in the 1960 in Canada.

Greenpeace message is «When you cut down the last tree and kill the last fish, poison the last river, then you will see that you can't eat money»

The background of the slide features several faint, concentric circles in a lighter shade of blue, resembling ripples in water, located in the bottom right and bottom center areas.

Friends of the Earth

Друзья Земли an environmental pressure group. Founded in the UK in 1971. The aim of the group is to protect the environment. The main concerns are air, sea, river and land pollution. FOE has branches in 30 countries

**What does the word
“ecology” mean?**

What pollutes Nature?

What are the main
ecological problems?

What do you know about
ecological problems in our
republic ?

What is environmntnt?

□ What organisations of environment did you know?

□ What about the habitat we don't see?

Find the English equivalents for the following word-combinations

1. Проблемы окружающей среды
2. Вредные вещества
3. Редкие виды животных
4. Ядерное загрязнение
5. Ядовитые отходы

1. Environmental problems
2. Nuclear pollution
3. Toxic waste
4. Rare species of animals
5. Harmful substances

Situation

- Imagine that you are a member of the Greenpeace organization and you are going to take part in the demonstration. You are going there with slogans. Prepare the slogan.
- If I were an ecologist.....

**□ Can you help the planet?
How? What should you do?**

It's a small world.

It's a world of laughter, a world of tears

- It's a world of hopes and world of fears.
- There's so much that we share,
- That is the time that we are aware
- It's a small world after all.
- There's just one moon and one golden sun
- And a smile means friendship to everyone
- Though the mountains divide.
- And the oceans are wide
- It's a small world after all.

Этот маленький мир.

Это – мир смеха, мир слёз.

- Это – мир надежд и мир грёз.
- Каждому достанется кусочек его.
- И мы все ответственны за него.
- Это – маленький мир!
- Луна и солнце весь мир освещают.
- Улыбаться значит дружить.
- И хоть горы и моря нас разделяют,
- Но всё же надо любить,
- Этот маленький мир!

Save our planet!
