

My perfect world

Feotkulov

Said-Akram

Friendship and understanding around the world

The world needs a friend
To love and depend on.
In times of trouble...

Friendship isn't how you forget, but how you forgive.
Not how you listen, but how you understand.
Not how you see, but how you feel.
Not how you let go, but how you hold on!

Kindness is very
important for
people

People like each other...

...and give their
some presents

If all people were helpful, the world would be ideal place to be in

But human beings are killing our planet

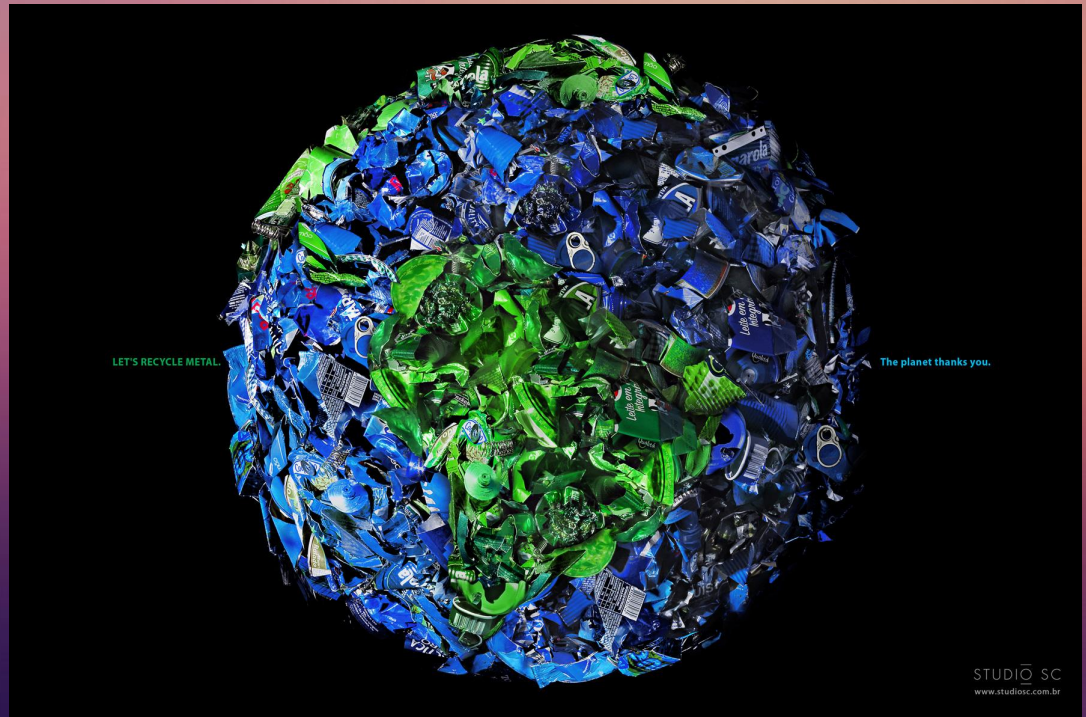

The country is now
polluted by factories

If we didn't pollute over rivers
and lakes they would be full
of fish

We live among litter
It is very dangerous ...

Thanks for attention
