

Potholing

Plan

1. General information

2. Names of people

3. Equipment

4. Adjectives

5. More information

1. General information

Caving—also known as **potholing** in the United Kingdom—exploring wild cave in the United Kingdom—exploring wild cave systems. In contrast, speleology is the scientific study of caves and the cave environment.

2. Names of people

Clay Perry Clay Perry, an American caver of the 1940s, wrote about a group of men and boys who explored and studied caves throughout New England. This group referred to themselves *asspelunkers*. This is regarded as the first use of the word in American.

He has written a book, where he has described a nature of caves, his helpful friends and some most interesting facts from his life – his expedition.
