Professions

Journalist, reporter

A journalist collects, writes and distributes news and other information. A journalist's work is referred to as journalism. A **reporter** is a type of journalist who researches, writes, and reports on information to be presented in sources, conduct interviews, engage in research, and make reports. The information-gathering part of a journalist's job is sometimes called "reporting," in contrast to the production part of the job such as writing articles. Reporters may split their time between working in a <u>newsroom</u> and going out to witness events or interview people.

A **film director** is a person who directs the actors and <u>film</u> <u>crew</u> in <u>filmmaking</u>. They control a film's <u>artistic</u> and <u>dramatic</u> aspects, while guiding the <u>technical crew</u> and <u>actors</u>. Together with the producers, directors develop a vision for a film. Once this vision is developed it is then the director's job to carry out the vision and decide how the film should look. Directors are responsible for turning the script into a sequence of shots. They also direct what tone it should have and what an audience should gain from the cinematic experience. Film directors are responsible for deciding camera angles, lens effects and lighting with the help of the cinematographer and set designer. They will often take part in hiring the cast and key crew members. They coordinate the actors' moves and also may be involved in the writing, financing and editing of a film.

Architect

An architect is a person trained in the planning, design and oversight/supervision of the construction of buildings. To *practice* architecture means to offer or render services in connection with the design and construction of a building, or group of buildings and the space within the site surrounding the buildings, that have as their principal purpose human occupancy or use

Goldsmith

A **goldsmith** is a <u>metalworker</u> who specializes in working with <u>gold</u> and other<u>precious metals</u>. Historically goldsmiths have also made <u>silverware</u>, <u>platters</u>, <u>goblets</u>, decorative and serviceable utensils, and <u>ceremonial</u> or <u>religious</u> items, but the rising prices of precious metals have curtailed the making of such items to a large degree.Goldsmiths must be skilled in forming metal through <u>filing</u>, <u>soldering</u>, <u>sawing</u>, <u>forging</u>, <u>casting</u>, and <u>polishing</u> metal.

A sea (or lake/river) captain (also called a master or a shipmaster) is a licensed mariner in ultimate command of the vessel. The captain is responsible for its safe and efficient operation, including cargo operations, navigation, crew management and ensuring that the vessel complies with local and international laws, as well as company and flag state policies. All persons on board, including officers and crew, other shipboard staff members, passengers, guests and pilots, are under the captain's authority and are his ultimate responsibility.

Flight attendants

Flight attendants or cabin crew (also known as stewards/stewardess es, air hosts/hostesses) are members of an aircrew employed by airlines primarily to ensure the safety and comfort of passengers aboard com mercial flights, on select business jet aircraft, and on some military aircraft.

Perfumer

A **perfumer** is a term used for an expert on creating <u>perfume</u> compositions, sometimes referred to affectionately as a *Nose* (French: *le nez*) due to their fine sense of smell and skill in producing olfactory compositions. The perfumer is effectively an artist who is trained in depth on the concepts of fragrance aesthetics and who is capable of conveying abstract concepts and moods with fragrance compositions. At the most rudimentary level, a perfumer must have a keen knowledge of a large variety of fragrance ingredients and their smells, and be able to distinguish each of the fragrance ingredients whether alone or in combination with other fragrances.

Navigator

A **navigator** is the person on board a ship or aircraft responsible for its navigation. The navigator's primary responsibility is to be aware of ship or aircraft position at all times. Responsibilities include planning the journey, advising the **Capitain** or aircraft Commander of estimated timing to destinations while en route, and ensuring hazards are avoided. The navigator is in charge of maintaining the aircraft or ship's nautical charts, nautical publications, and navigational equipment, and generally has responsibility for meteorological equipment and communications.
