Rockers

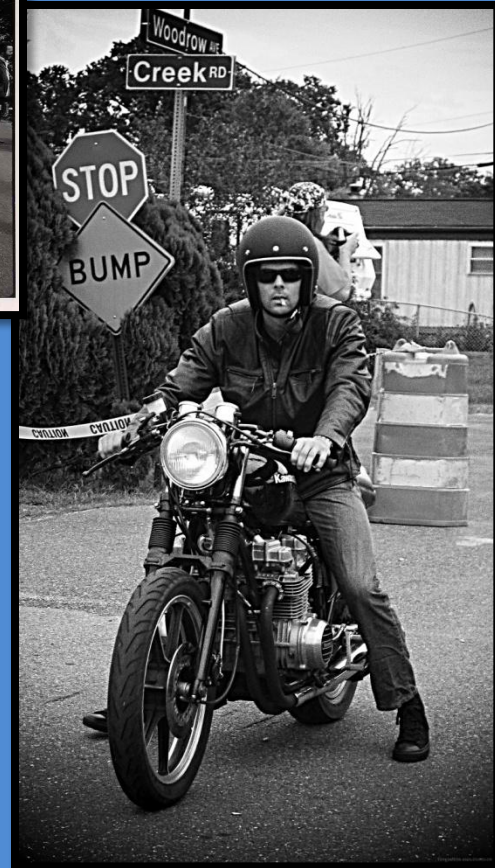

Rockers appeared in the mid 60s and reached their peak in the late 60s - early 70s , both in England and on the continent . Rockers - come mostly from families of unskilled workers , and often without education, from the "problem" families.

Rocker clothes - leather jacket, worn jeans , rough big shoes , long hair slicked back , sometimes tattoos. Jacket, usually decorated with icons and labels.

The main element of the subculture rockers - motorcycle, also decorated with inscriptions, symbols and images. Motorcycle - a symbol of freedom, power and intimidation, the main source of strong sensations. At the same time rockers are highly valued technical knowledge and driving skills.

Thank you for attention
