Сколько же комнат в новом доме
Хоббита?

Hobbit has in his house.

Как вы думаете, для чего Хоббиту нужно столько много комнат?

Hobbit has so many rooms because....

- he likes guests [gests] (гости).
- he has many friends.
- he has a lot of things.
- he likes to clean room.
- he wants to invite (приглашать) children from Russia.
- he has a lot of sisters and brothers.
- he has a lot of coats

Англичане часто используют одно выражение, оно помогает нам говорить о том, что находится в нашей квартире, в нашем доме. Это слова:

There is...

There are...

Эти слова стоят в начале предложения.

Example:

There is a pantry in Hobbit's house.

(В доме Хоббита есть кладовая.)

There are three bedrooms in Hobbit's house.

(В доме Хоббита три спальни.)
