FROM HISTORY OF NEWSPAPER..

In ancient Rome, announcement bulletins of the **Acta Diurna** government were made public by **Julius Caesar**. They were carved on stone or metal and posted in public places.

In China, early government-produced news sheets, during the late **Han dynasty** (second and third centuries AD). Between 713 and 734, the Chinese **Tang Dynasty** published government news; it was handwritten on silk and read by government officials.

The process of sending and receiving messages through the air , broadcasting programmes for people to listen

FOI

FOI

Nikola Tesla developed means to reliably produce radio frequencies, publicly demonstrated the principles of radio, and transmitted long distant signals. On May 7, 1895 the Russian physicist <u>Alexander Popov</u> performed a public demonstration of transmission and reception of radio waves used for communication .This day has since been celebrated in Russia as "Radio Day<u>"</u> **Guglielmo Marconi** was an electrical engineer and Nobel laureate known for the development of a practical wireless telegraphy system. In 1896, he was awarded a patent for radio with British Patent .
