The project about styles of clothes

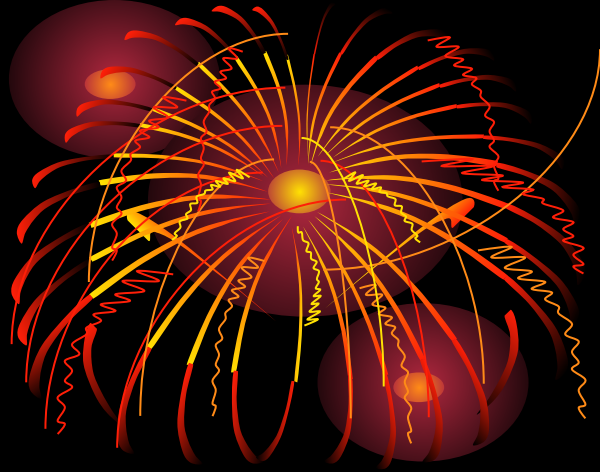

Welcome

Fashion in our life.

- These days most people in the world do not wear very formal clothes. But sometimes it is important to wear the right thing. Many British and Russian people don't think about clothes very much. They just like to be comfortable.
- At the theatres, cinemas and concerts you can put on what you like — from jeans and sweaters to T-shirts and shorts. Anything is OK as long as you look clean and neat.
- But men in offices usually wear suits and ties and women wear dresses or skirts (not trousers).
- Doctors, lawyers and businessmen wear formal clothes. And in some hotels and restaurants men wear ties and women wear smart dresses. Jeans and open shirts are sometimes not allowed.
- It is difficult to say exactly what people wear in Britain and Russia because everyone is different. If you are not sure what to wear, watch what other people do and then do the same. Or ask the advice of a friend. You'll feel more relaxed if you don't look too different from everyone else.

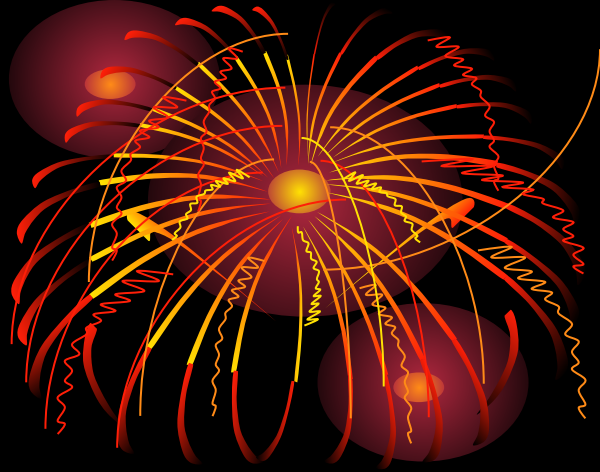

School clothes.

- I think that there should be formal clothes at school: both boys and girls should wear the school form. It seems to me the boys should wear the dark-blue trousers, a jacket and a white shirt. They should wear dark shoes.
- And girls will look very attractively in blue skirts and waistcoats. The light blouses are very beautiful, especially blue and white tones. The girls might put on golf's and light stockings. I think that this suit is the most suitable for school.
- When you look well and other people like you, you study better.
- It seems to me so.

A party clothes.

- Do you like to have fun? And how often do you take part in the parties? And what do you put on?
- I think that the best party clothes are the clothes which make you feel well and free. The best variant, in my opinion, is the clothes which you can put on only in especial cases.
- And the celebratory clothes depend on especial case. Sometimes the best clothes are topic and a short skirt. But sometimes you should put on a carnival suit and a mask. You will look perfectly if you pick up your best dress or suit.

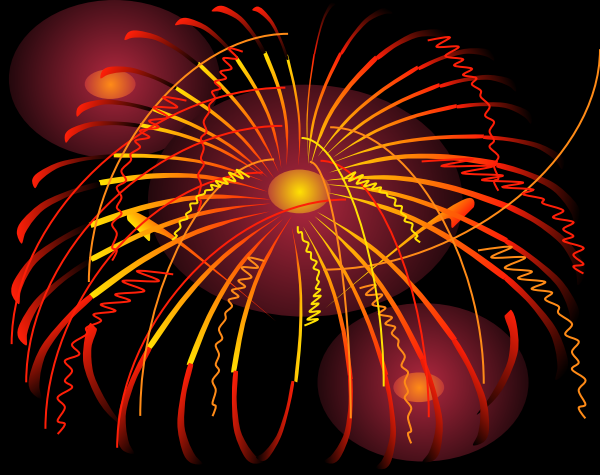

Sports clothes.

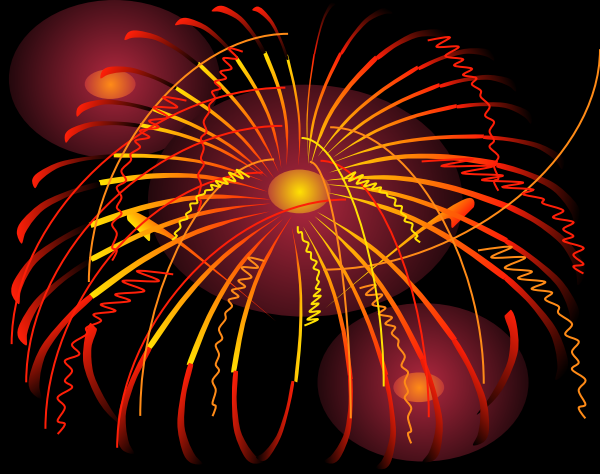

- Today many people in the world pay more attention to the physical health and good appearance. So many people are interested in a lot of sports. Football and basketball, billiards and ski, track, athletics and gymnastics help to look better.
- Sportswear is important in a sports training. People wear training suits and trainers, T-shirts and shorts. Some people need the suits, and others need bathing suits and helmets.
- I think that sportswear should be bright, beautiful and suitable for different kinds of sports. The person should be convenient and cozy in it.

The clothes on the free time activites.

- What do you wear if you are not at school and do not go in for sports? It is important question! And what do you like most of all? What clothes are traditional in your country?
- I think, that the person most of all accepts such clothes in which he feels like freely. Today a lot of people in the world wear informal clothes. And if you want to go to the theatre or to the cinema you will be able to put on your favourite things. Suits, skirts, blouses, trousers, sweaters, topics and shorts are suitable for free time activities. The colors are various: from bright and playful to quiet and even dark.
- If your clothes are tidy and beautiful, you'll be able to feel confidently always and everywhere.

Street styles.

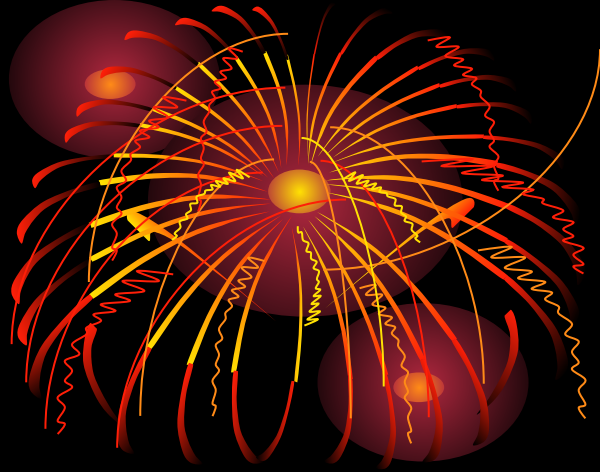

- Many people especially young people take no notice of the clothes the designers produce. They wear things which express their and feelings about life. If a boy has very short, almost shaven hair, people expect him to have right wing polities. But boys with very long hair are thought to have left wing politics. A boy who wears a leather jacket covered in bits of metal will probably ride a motorbike. A girl who wears Laura Ashley dresses will probably have middle-class ideas.
- Some young people, of course, have fun with all the latest «Street styles. »They cut their hair into strange shapes, wear lots of cheap jewelry, or point their limes blue. These «Street styles » come and go. But a lot of young people thy to look as clean and tidy as possible. Clothes ninth a sporty look are popular. They mane people look healthy and energetic.
- Street styles are not created by the big fashion designers. In lacto, the fashion designers often use ideas from street fashions then their own designs are made. But some leathers of British fashion have enough ideas of their own. One of them is jean Muin, whose designs let her be one of the best designers.

To be fashionable means to be stylish.
