Salekhard, the capital of Yamal
It is the only town on our planet
which is located right on the
latitude of the polar circle.

The Aurora borealis, a beautiful, dynamic display of shifting colored lights

The river Yuribey is the real wonder of Yamal. Just here, near the Yuribey people found the oldest animal on the Earth, the mammoth. For inhabitants of Yamal Juribej – the life river.

Polar Day and Polar Night

**Resting in the sky,
rocks of Polar Ural
rise, breaking
directly in waves of
Kara Sea. Here is
the most northern
part of the Ural
ridge. On it there
passes a line
dividing two great
continents: Europe
and Asia.**

Deposits of oil and gas

Yamal is the largest oil and gas province. In a year it is extracted about 40 million tons of oil, about 600 billion cubic m. of gas.

The people of Yamal

Yamal – the native land of the radical people: nenets, khunts and selcups. They are sincere, hospitable, hardworking, modest people.

We love Yamal
