

The Victorian Age

Understand why an epoch in the
history of Britain was called
"Victorianism"

Queen of the United Kingdom of Great Britain and Ireland from 20 June 1837

- Empress of India from 1 May 1876.
- The beginning of the epoch started with her coronation on January 28, 1838

Her reign and political viewpoints were affected by her beloved husband Albert

- When he died at the age of 42, “the light faded for me,” - said the Queen, adding that “his views on everything in the world will now be my law“.

The famous Victorian era was characterised by:

- flourishing country
- stability
- earnings growth
- expansion of holdings
- technical progress

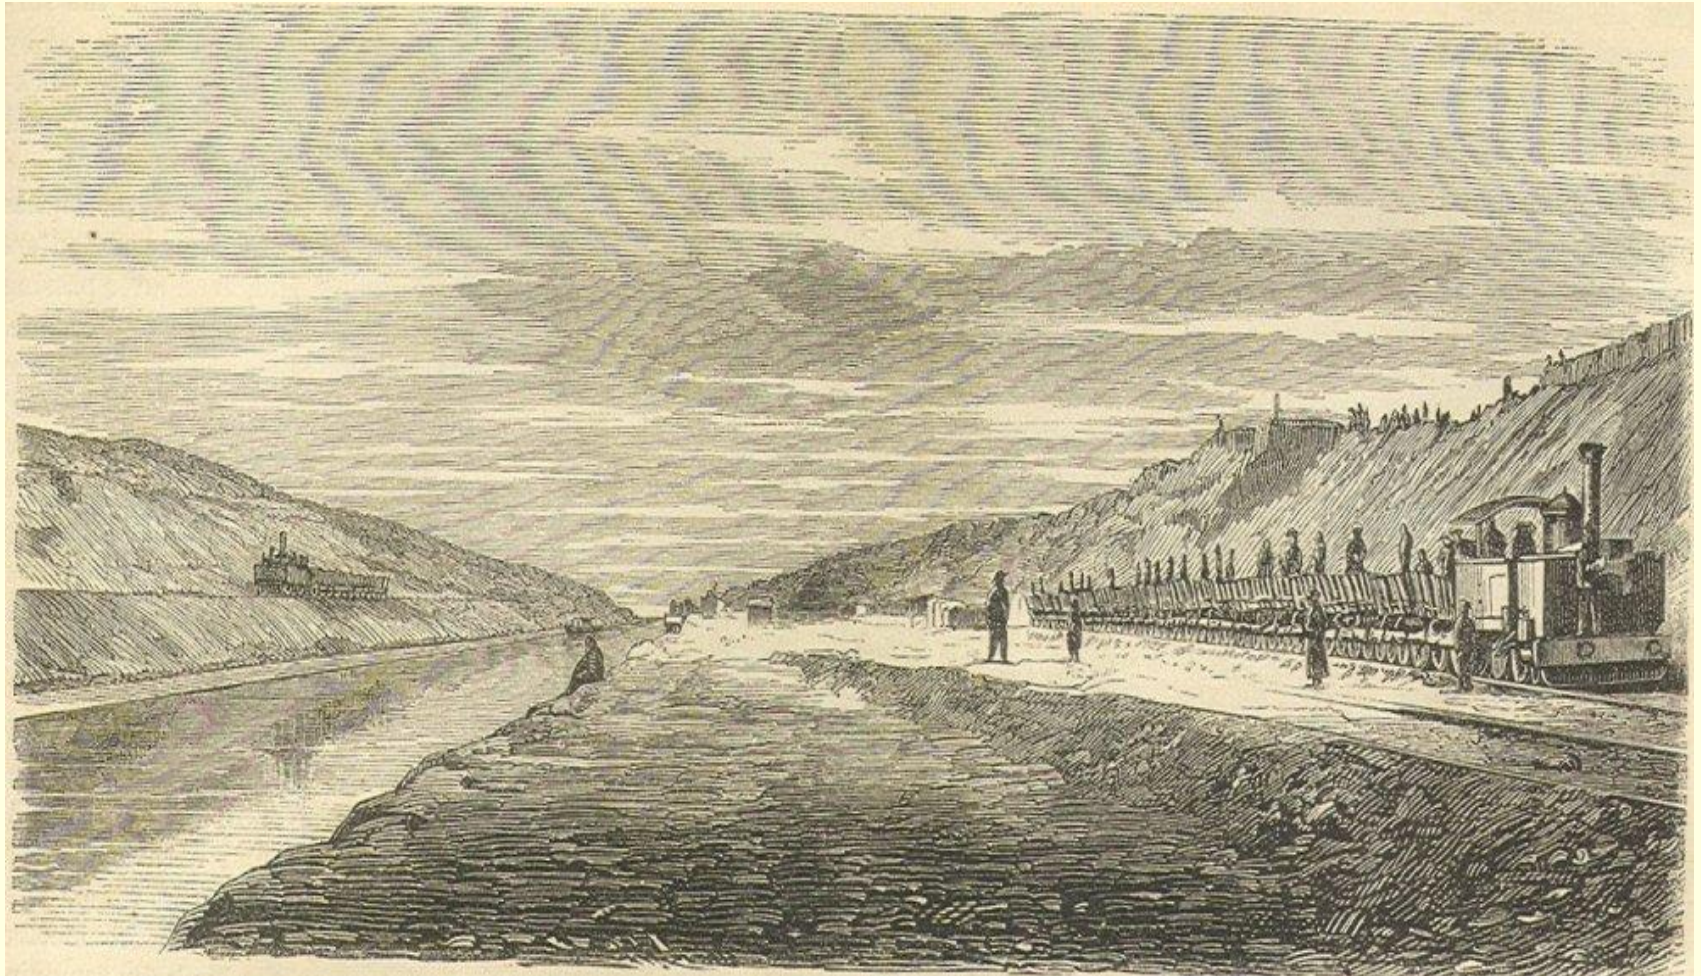

Victorian innovations:

- street lighting,
- sidewalks,
- sanitation and hygiene,
- water supply and sewerage,
- metro
- kitchen equipment and cans, picture,
- music boxes and mechanical pianos,
- toys, cards.
- the practice of gifts and theatrical celebration of Christmas.

Victorian innovations:

- in 1850 the country is covered by a network of railways.
- in 1870 entered the state educational system, to guarantee primary education.
- appears postal service.
- in 1871, the Oxford and Cambridge were made available to all
- in 1870, competitive tests have become a common way of entry into the civil service.
- in 1875, an incredibly clever intrigue brings Britain a majority share of the Suez Canal.
- the following year of overseas possessions of England appears India – “the main jewel in the imperial crown”.

The Suez Canal

Mores of the Victorian era:

- strictness of morals, cold-blooded attitude towards art and stiffness.
- sobriety, punctuality, diligence, frugality and thrift appreciated and to the reign of Victoria, but it is in its era, these qualities have become the norm.
- strictness of moral rules.
- Sunday ceremonies, Bible reading and family prayers were commonplace until almost the end of the century.
