

There are a lot
of professions in
the world.

For example:

● A Doctor

An  
Actor

A Seller

A policeman

A Lawyer

A Painter

A Hairdresser

and others...

But I want
to be a
teacher.

The profession of a teacher has some advantages:

- long holidays,
- dealing with different people.....
- rewarding work

But also the profession has many faults:

- low salary,
- working with copybooks in weekends,
- problems with children,
- getting up early.....

Классная работа

**Teacher is the most
important person in
children's life after
parents.**

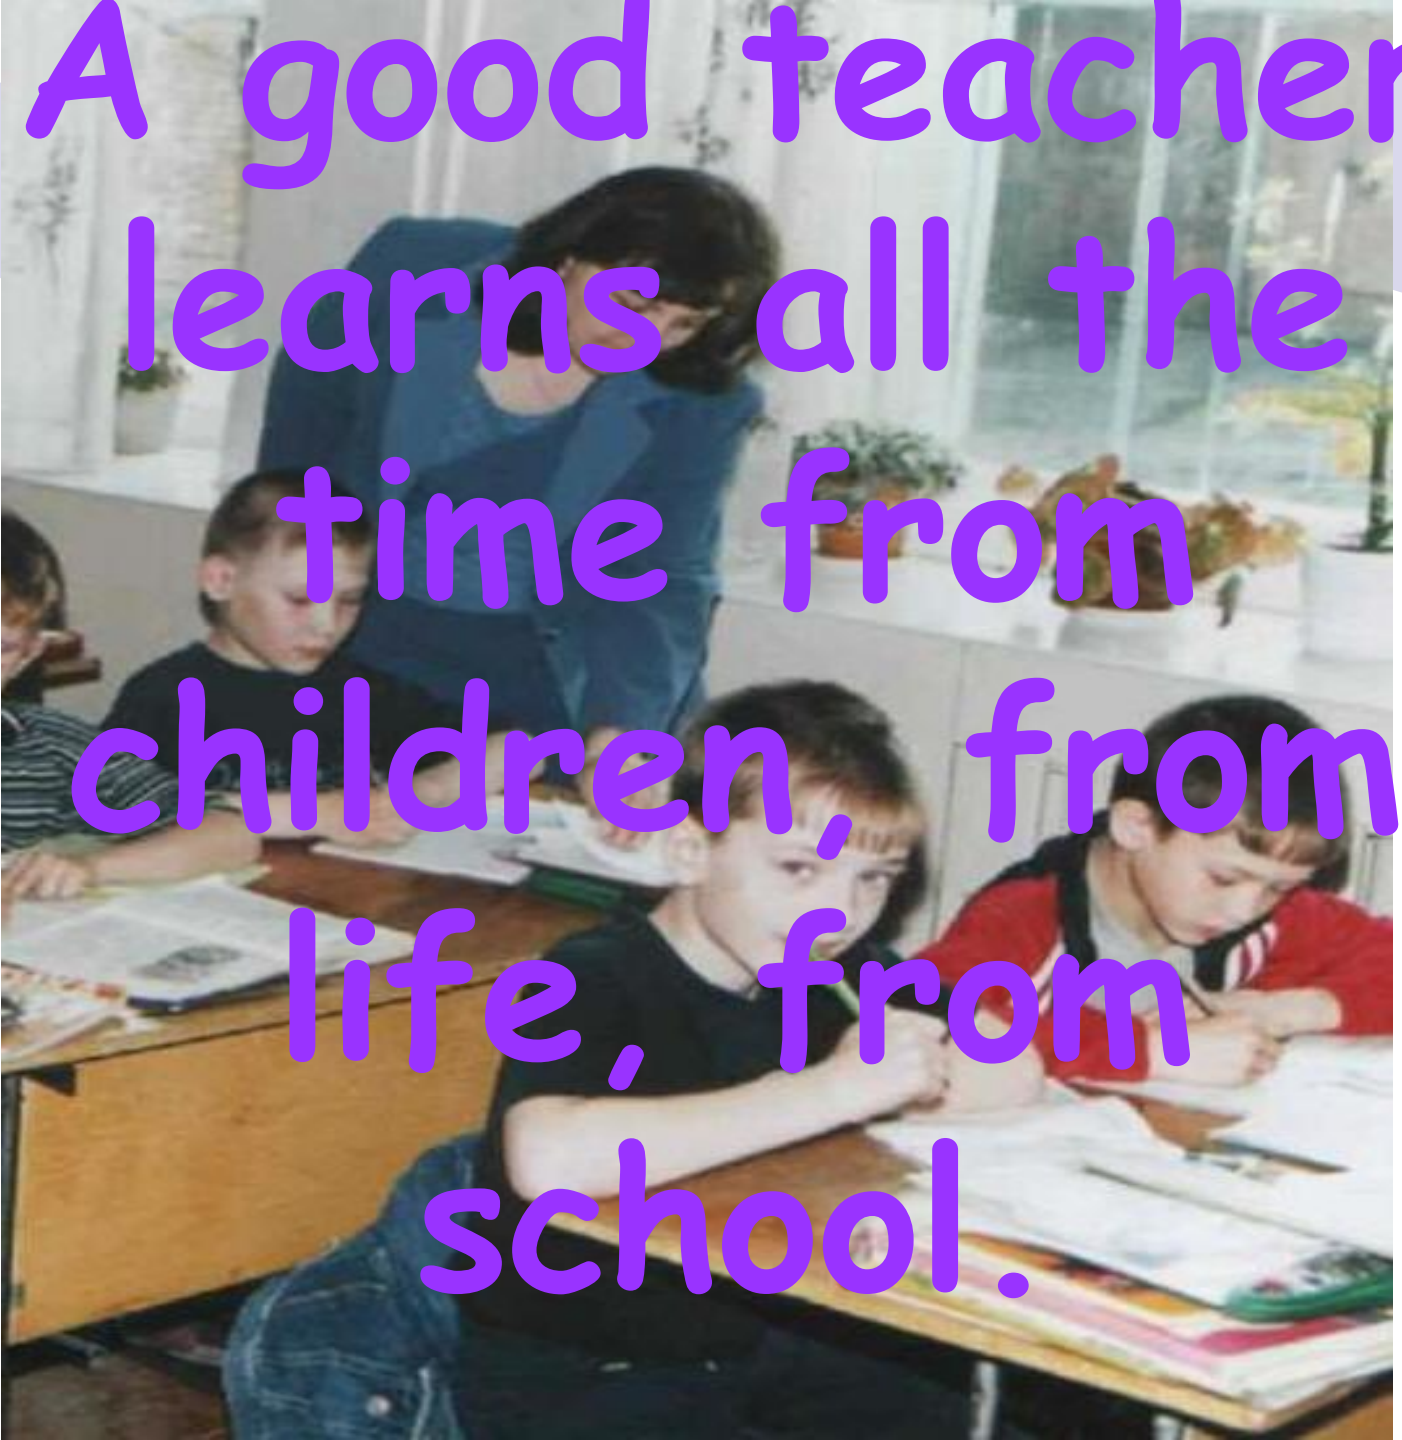

The title is decorated with five circles: a solid light purple circle behind 'T', an empty light purple circle behind 'e', a solid light purple circle behind 'm', an empty light purple circle behind 'h', and a solid light purple circle behind 'e'.

Teacher must have

- Determination
- tact
- patience
- initiative
- imagination

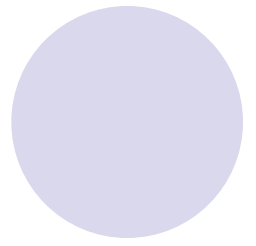

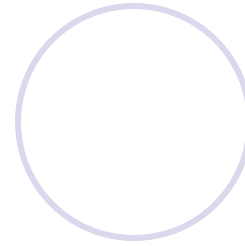

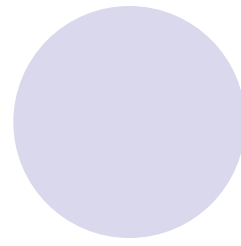

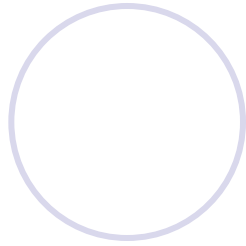

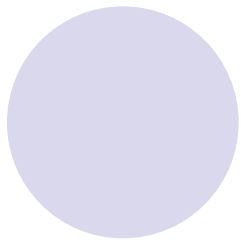

And also he must be of pleasant appearance and must have a good speaking voice.

A good teacher
learns all the
time from
children, from
life, from
school.

A great
teacher is
a great
artist.

**Teaching is a real
challenge to my
character, abilities and
talent.**

I hope, that I'll
be a good
teacher and that
my pupils will love
me and my
subject.
