Topic: Welcome to “Mukhinka”!

Hypothesis: Can we have a nice rest not far from the house?

Aim: To pay attention to opportunities for the rest in Amur Region.

Tasks:

1. To learn the opportunities of a full value rest in our region.
2. Investigate the opinions about the rest at the tourist center “Mukhinka”.
3. To make an advertisement of the rest at the tourist center “Mukhinka”.

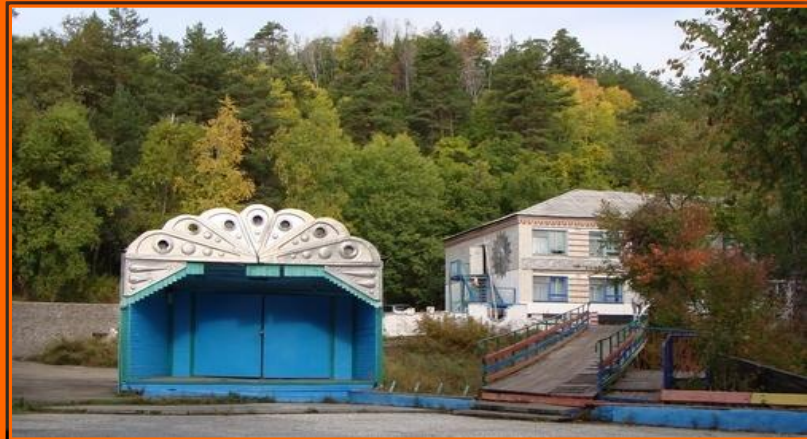

I would recommend you to have a nice rest at the tourist center “Mukhinka”. It’s situated in the picturesque countryside of Blagoveshchensk.

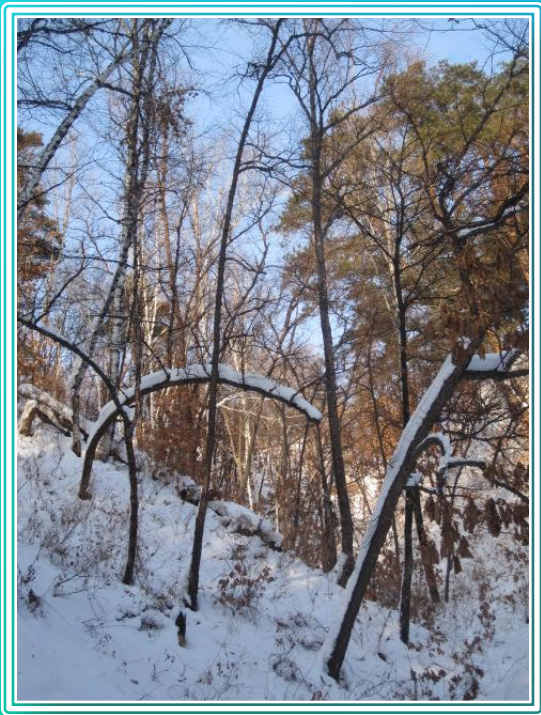

Forests of poplars, oaks and pines,
hills of rhododendron, fields of
irises and other wildflowers are
spread everywhere along the road.

In summer "Mukhinka" offers walks in the fresh air, swimming in the clean lake, catamarans and other water attractions.

In winter you may spend nice time going in for hills climbing, mountain skiing, skating, ski routes walking. Frosty winter air is so good for your health!

**The center has
become a popular
tourist attraction
in New Year and
Christmas
holidays and
other
celebrations.**

It has become a tradition for the citizens of Blagoveshchensk and Amur Region to celebrate the New Year holiday and other celebrations away from the city rush at the tourist center “Mukhinka”.

**If you want to relax, why not
to come to the tourist center
“Mukhinka” in Amur
Region? It welcomes guests
all the year round!**

Too nice for words!
