Нам понадобится вот такой материал:

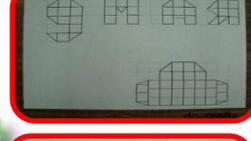

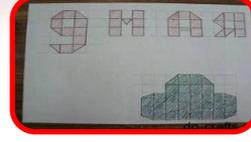

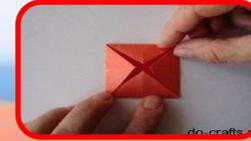

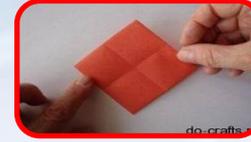

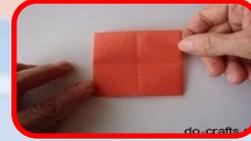

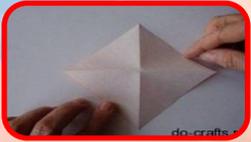

- Картонка, она понадобится для фона, берем голубой цвет.
- Бумага, цветная, конечно же красного ну и зеленого цвета.
- Георгиевская лента.
- Обычный клей и ножницы.

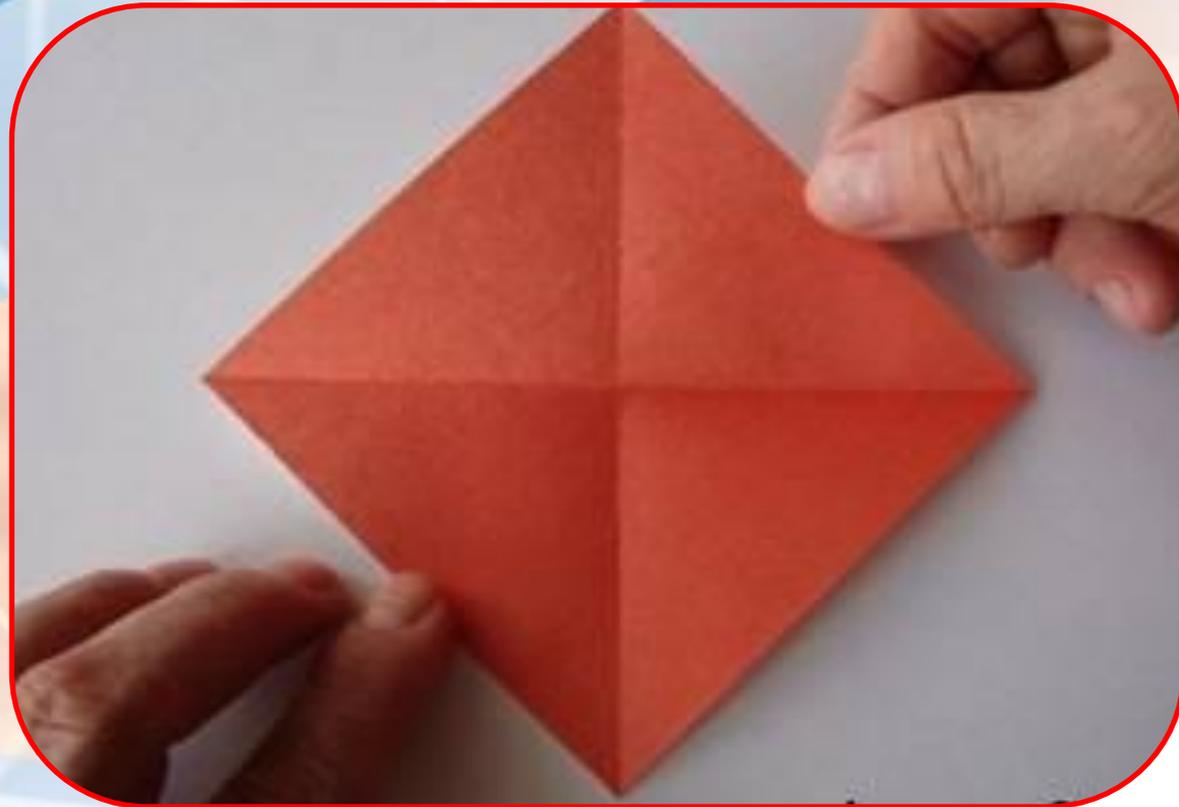

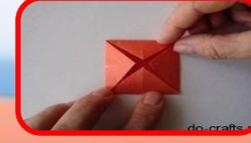

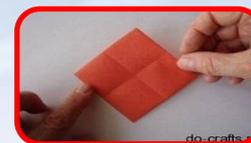

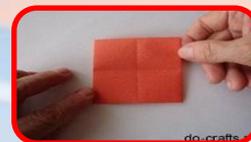

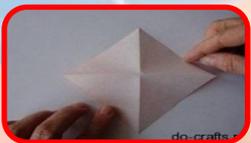

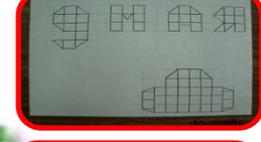

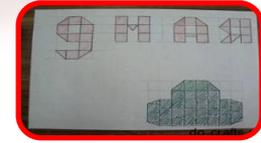

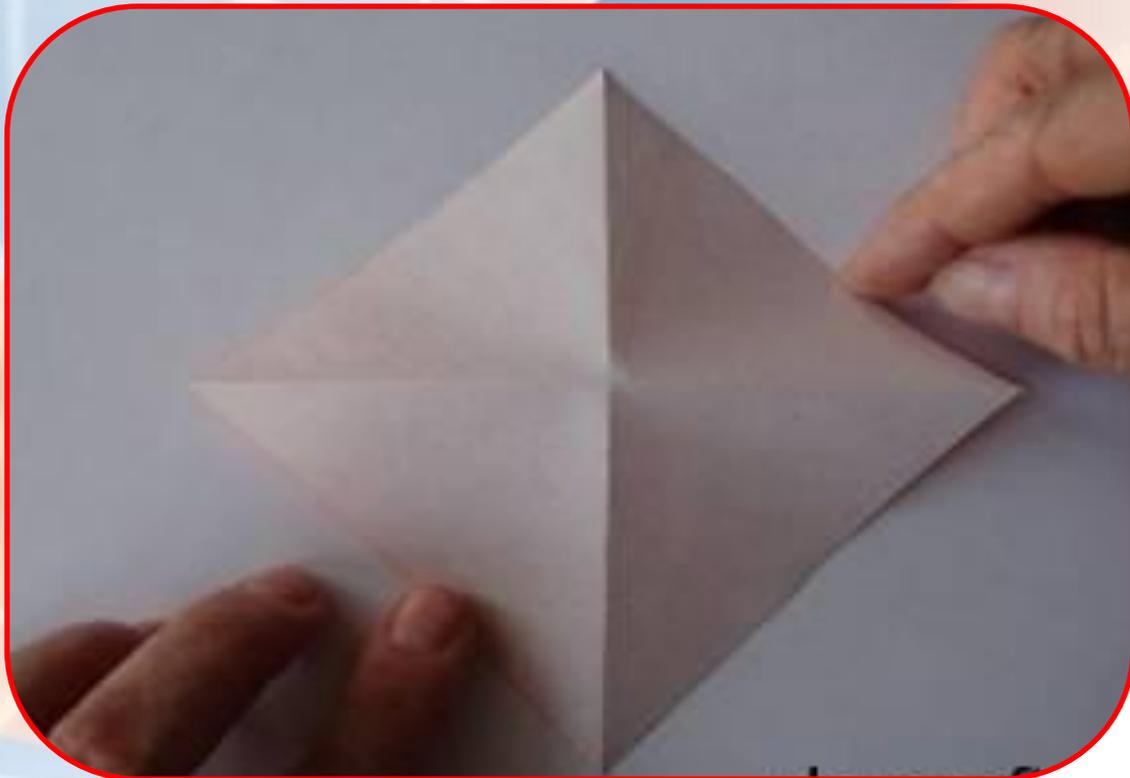

Нам понадобятся для поделки так называемые модули. 31 штука зеленого цвета и 29 модулей которые имеют красный цвет. Берем красный квадратик что бы был размер 4 см.

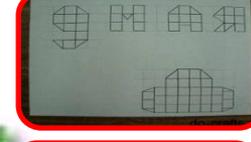

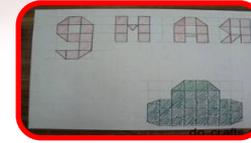

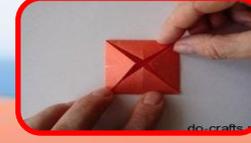

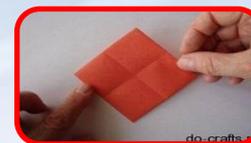

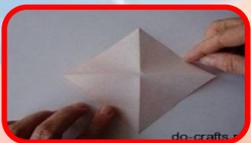

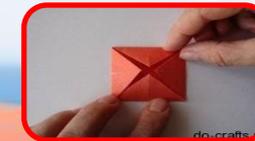

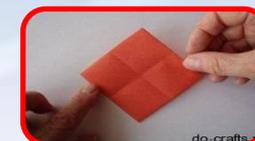

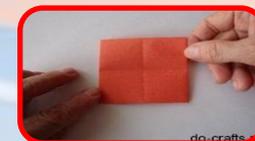

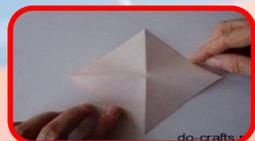

Теперь наш квадратик сгибаем по двум сторонам, по уголкам

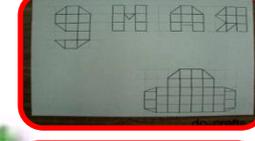

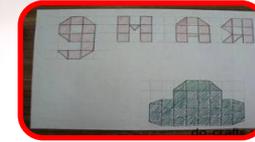

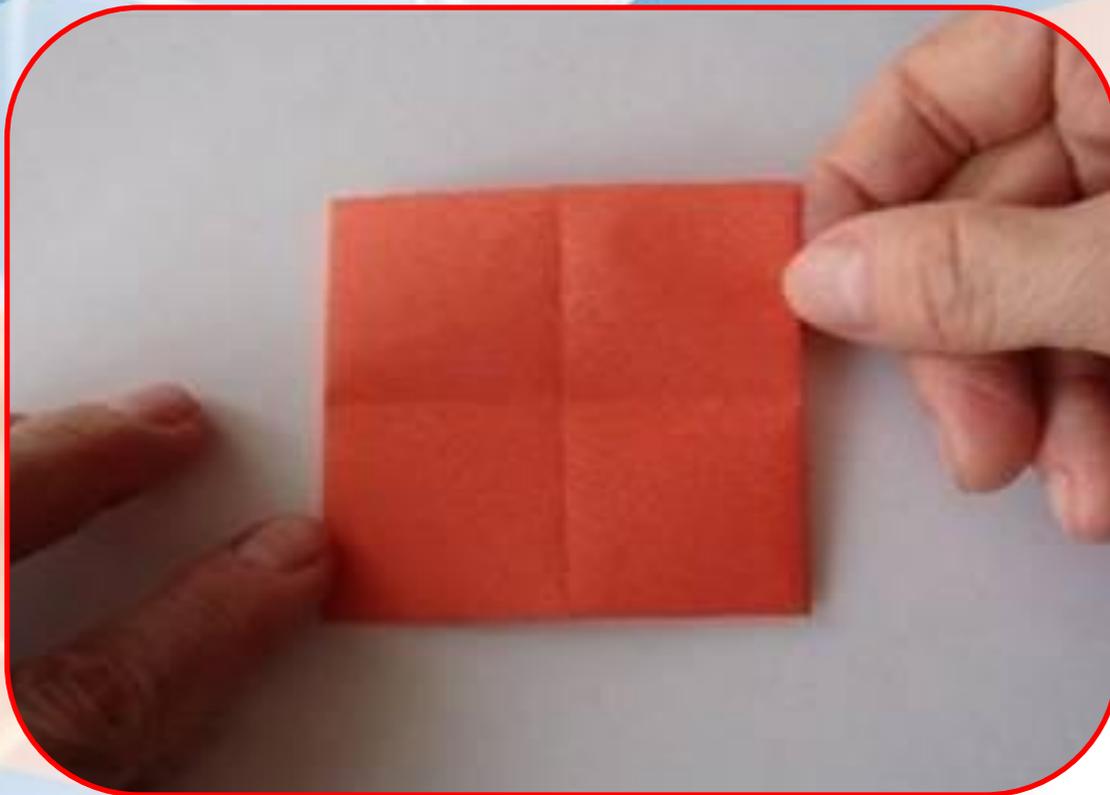

Затем переворачиваем красненький квадратик

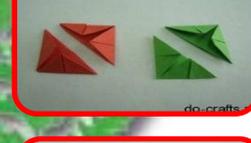

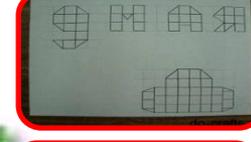

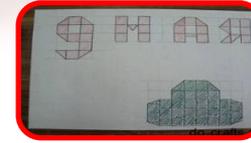

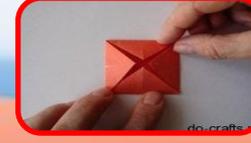

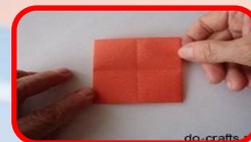

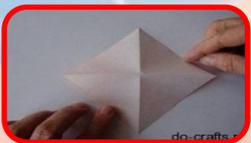

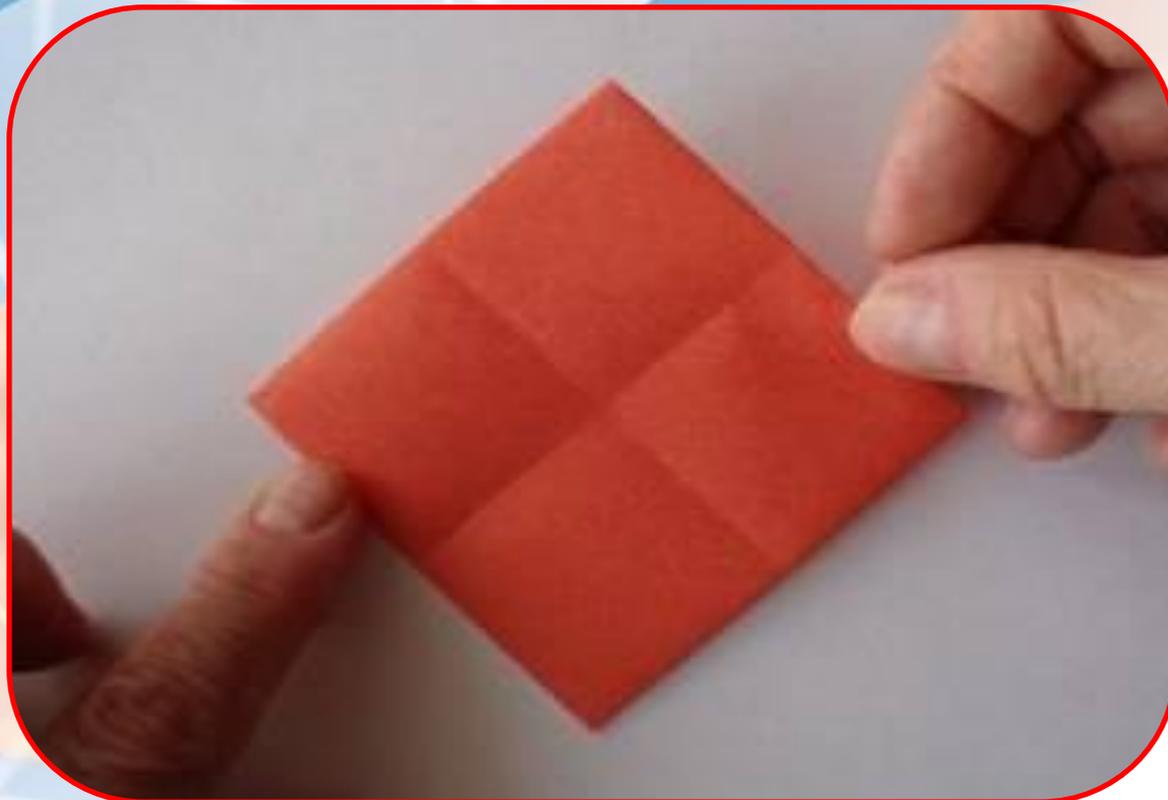

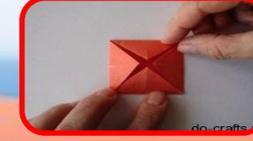

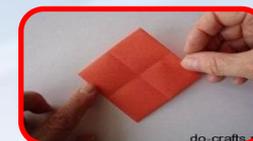

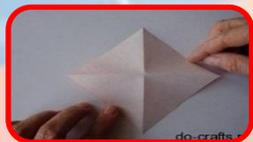

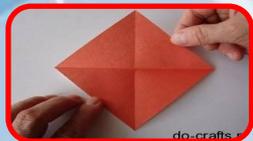

Складываем вот в таком виде квадратик.

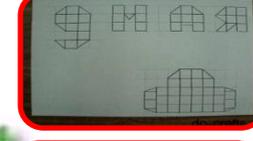

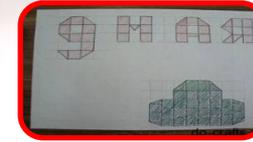

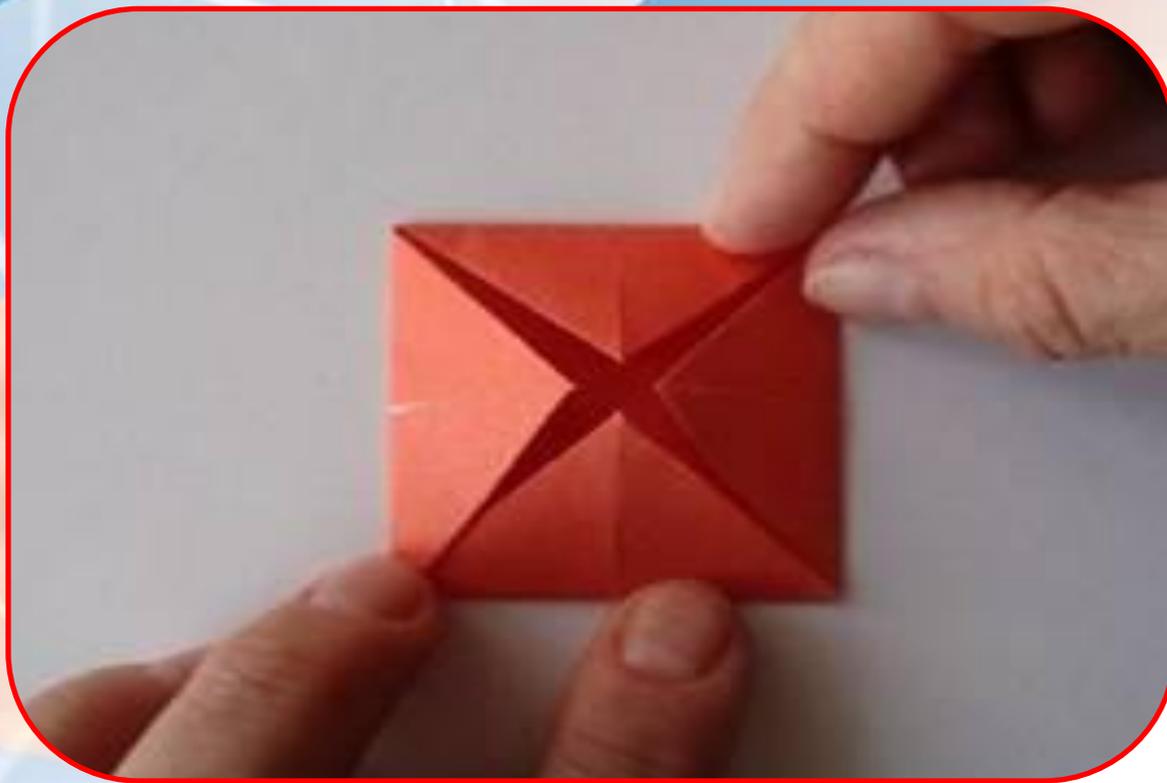

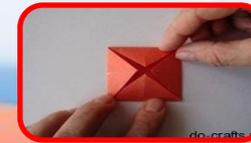

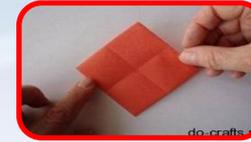

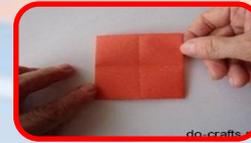

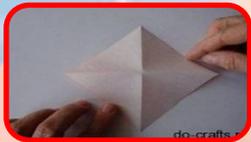

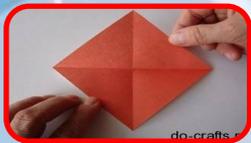

Переворачиваем наш квадратик на другую сторону

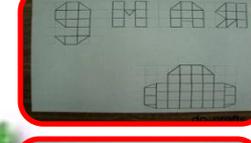

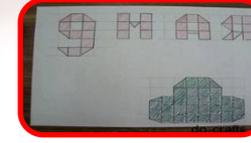

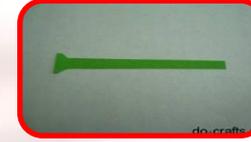

Следующим шагом положите квадрат под углом 45 градусов

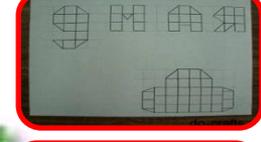

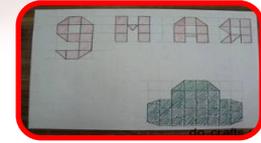

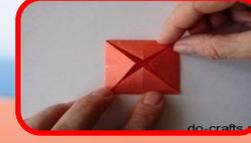

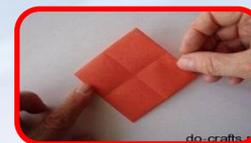

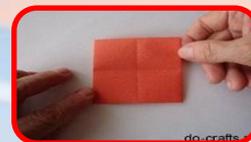

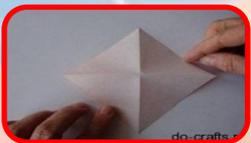

Теперь еще разок складываем квадратик в такой вид

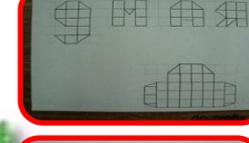

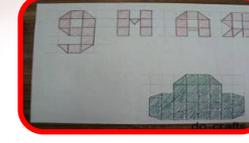

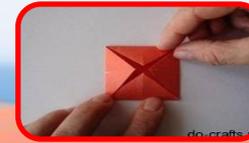

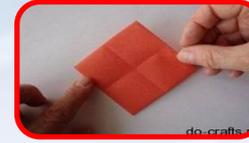

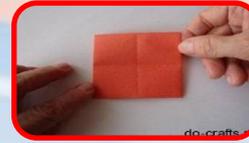

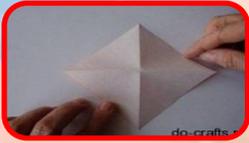

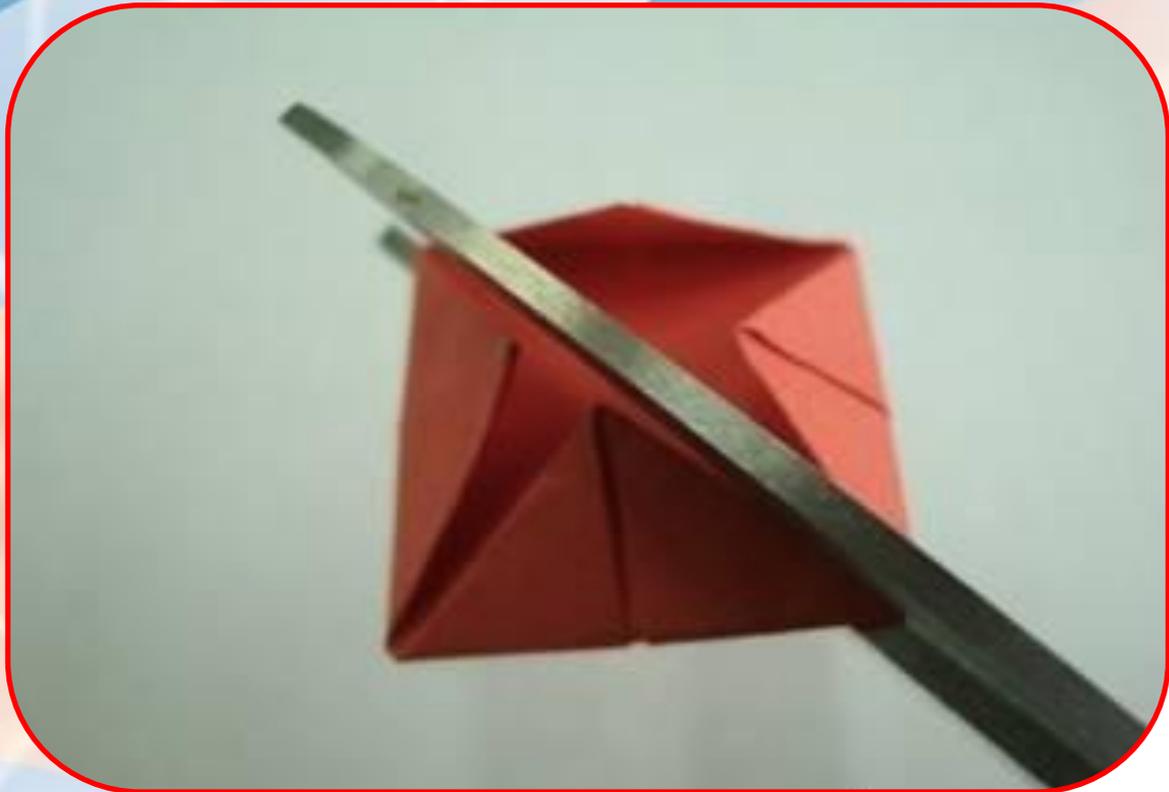

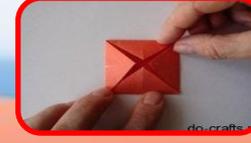

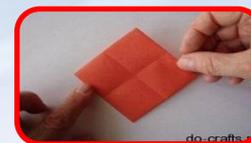

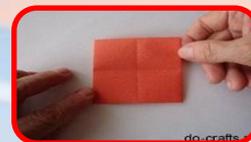

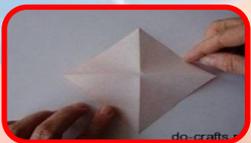

В таком же виде делаем все квадратики

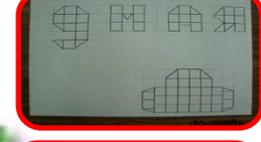

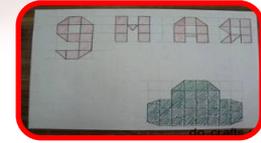

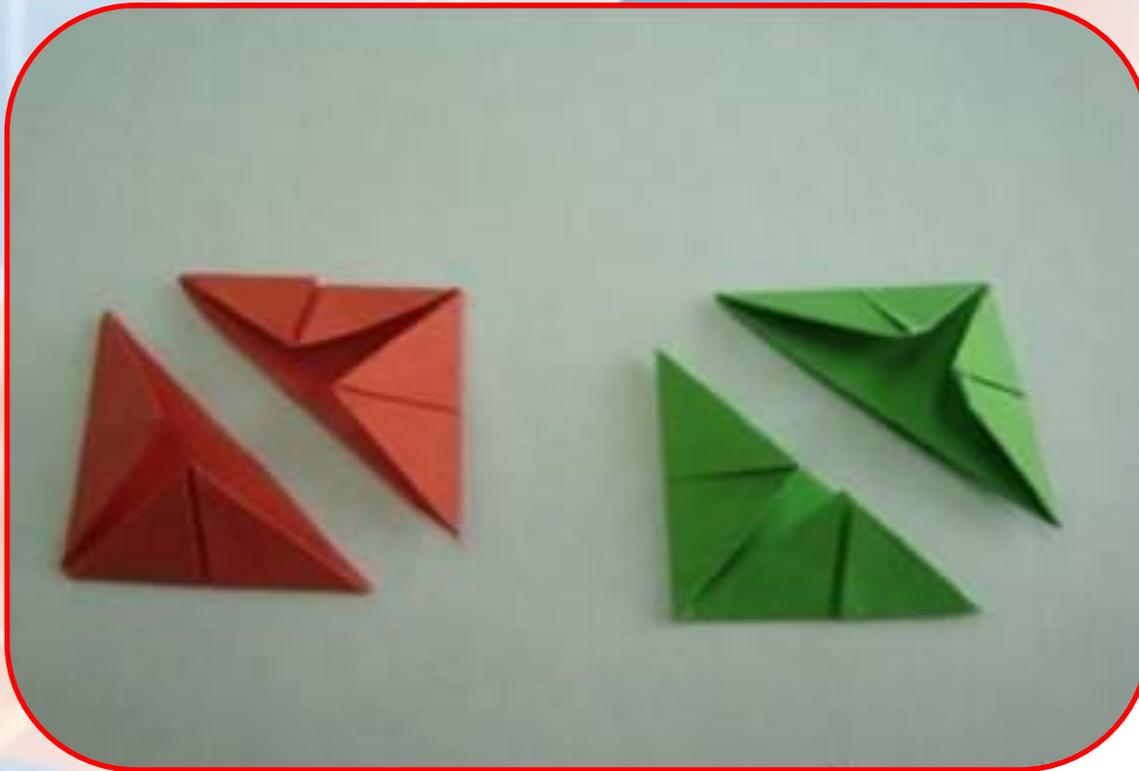

**В таком же виде делаем все
квадратики**

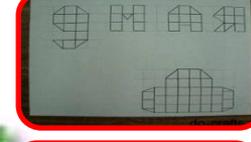

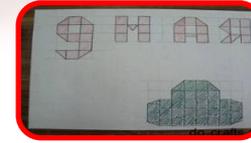

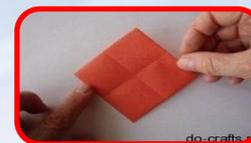

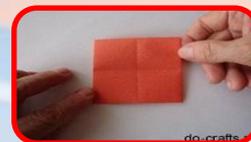

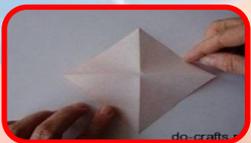

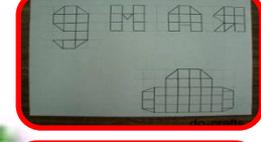

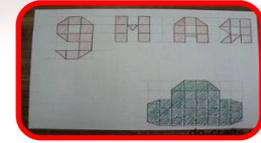

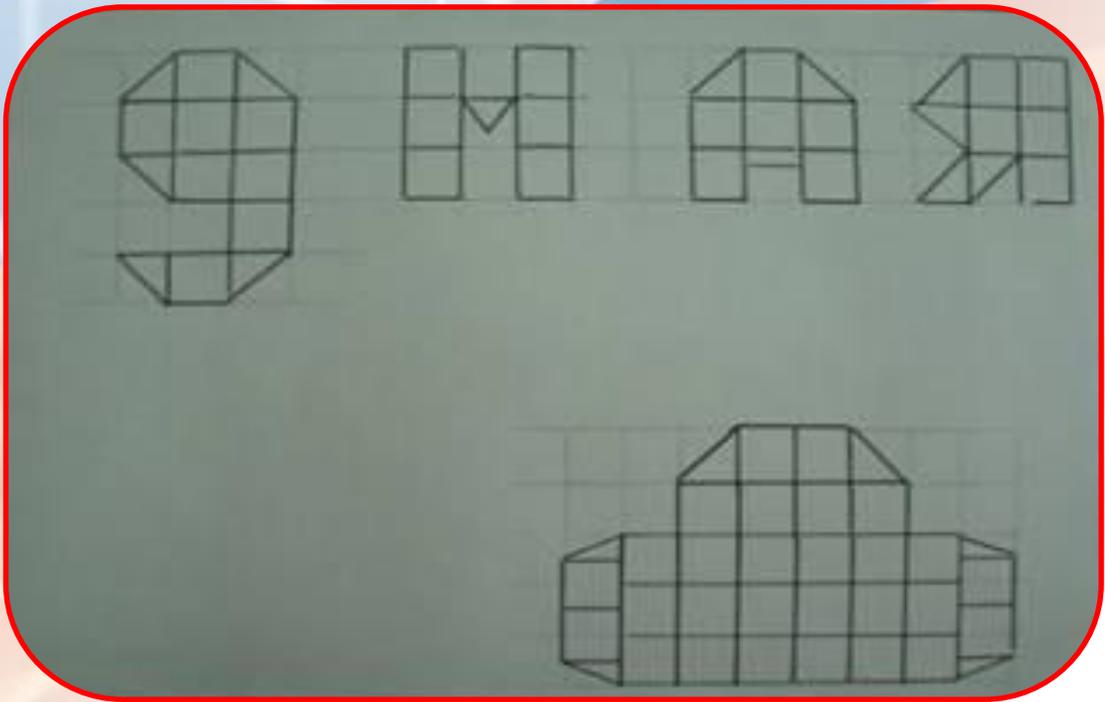

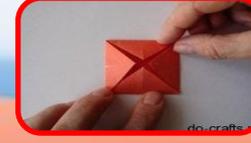

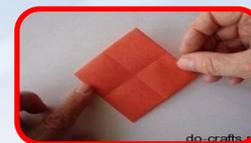

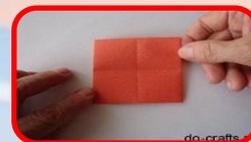

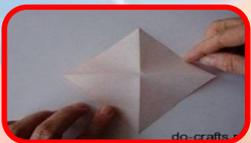

Что бы поделка являлась аккуратной, нам понадобятся треугольнички, делаем их

Для поделки нам понадобится общая заготовка, т.е. для начала на картонке надо нарисовать изначально картинку. А так же ее разрисовать, что бы понять куда какой модуль и какого цвета клеить
