Упражнения для устного счёта

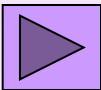

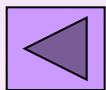

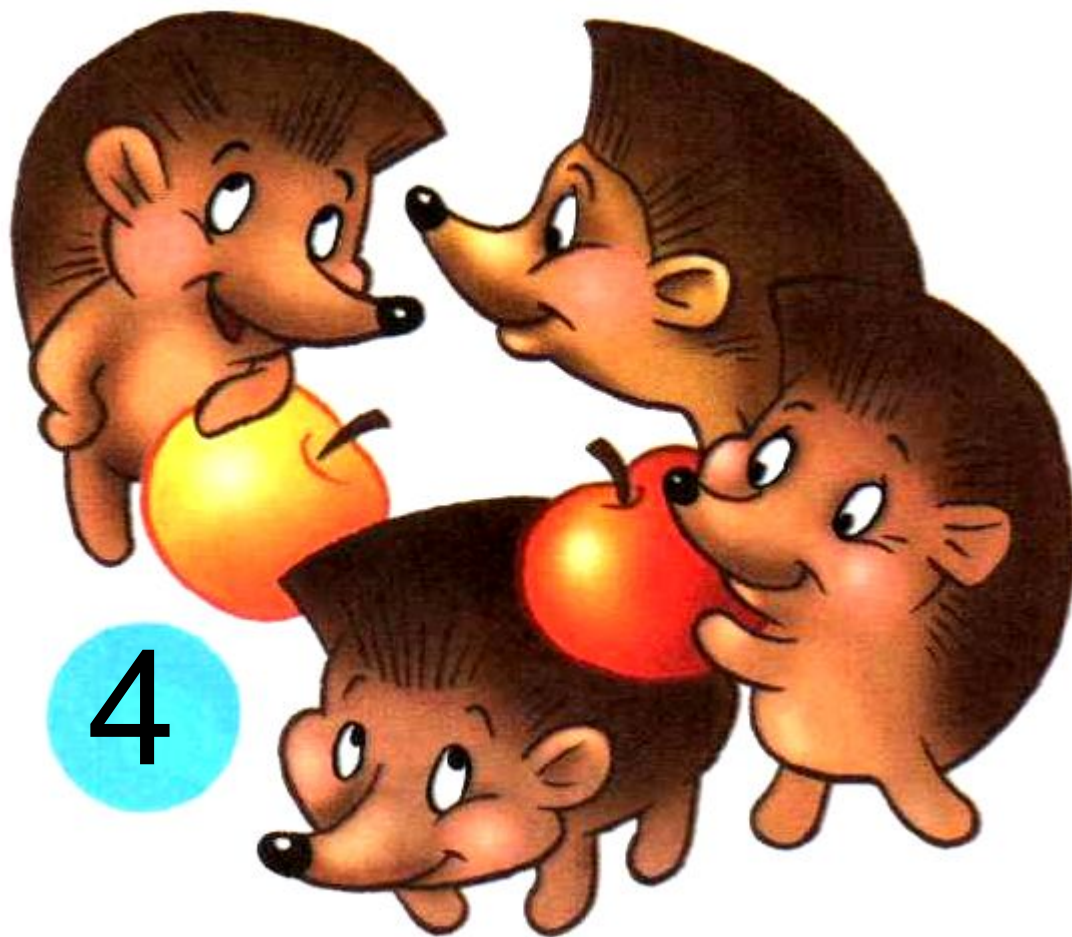

Содержание.

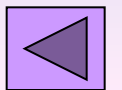

1. Счёт предметов
2. Сравнение предметов
3. Состав чисел
4. Пример по рисунку
5. Вопросы на внимание
6. Задачи на нахождение остатка.
7. Задачи на сравнение

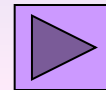

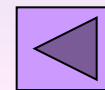

СКОЛЬКО?

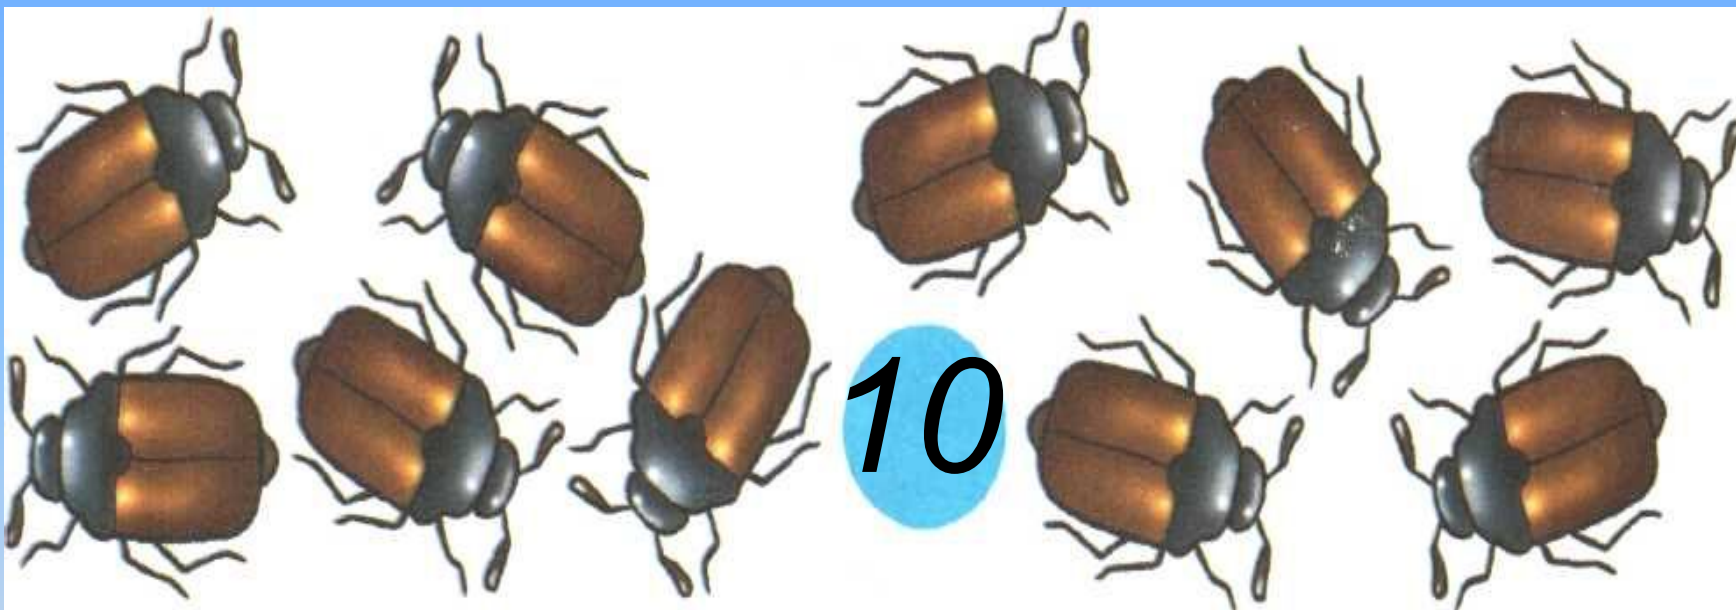

Покажи нужную цифру

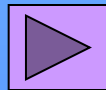

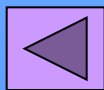

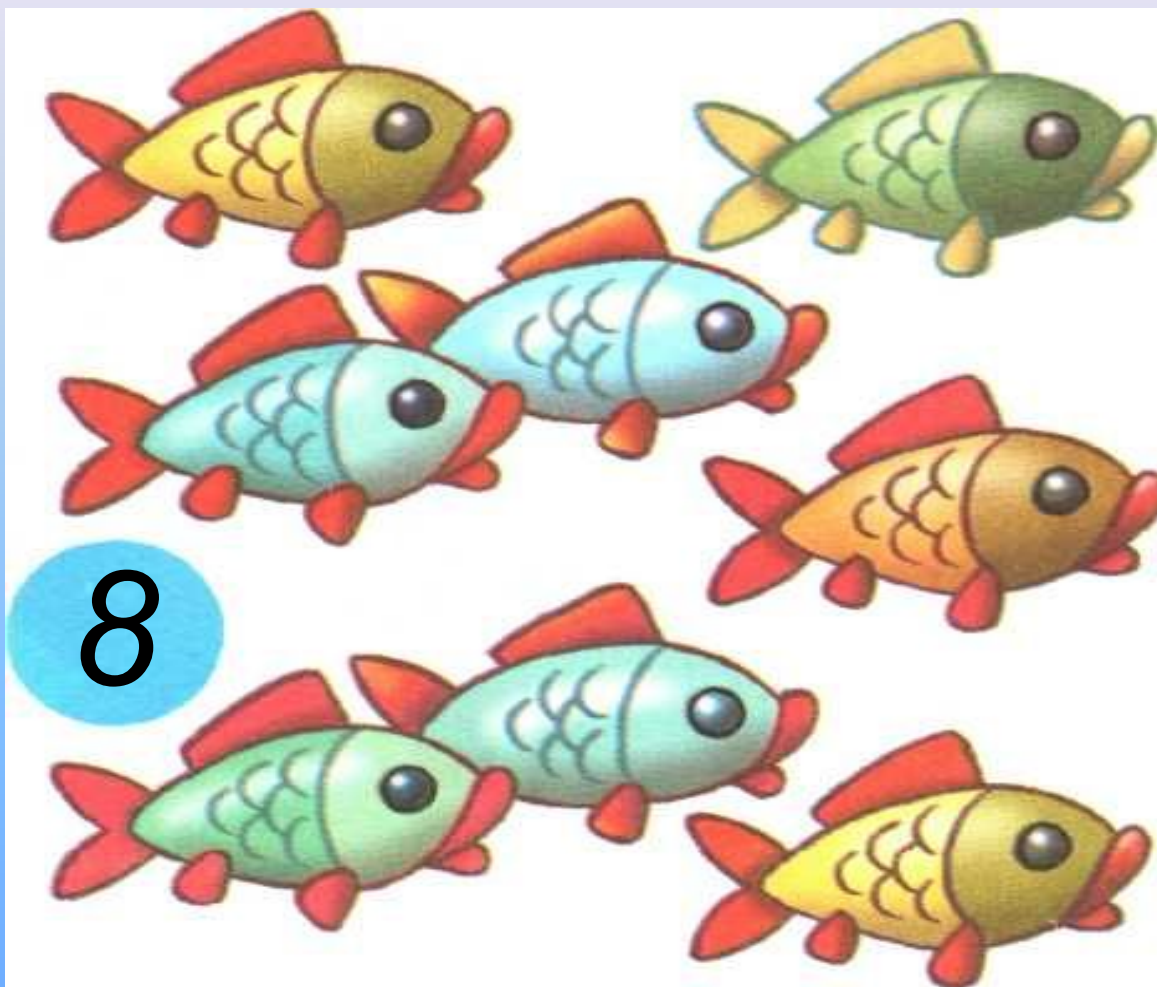

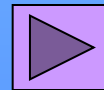

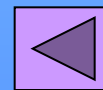

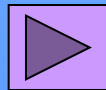

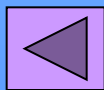

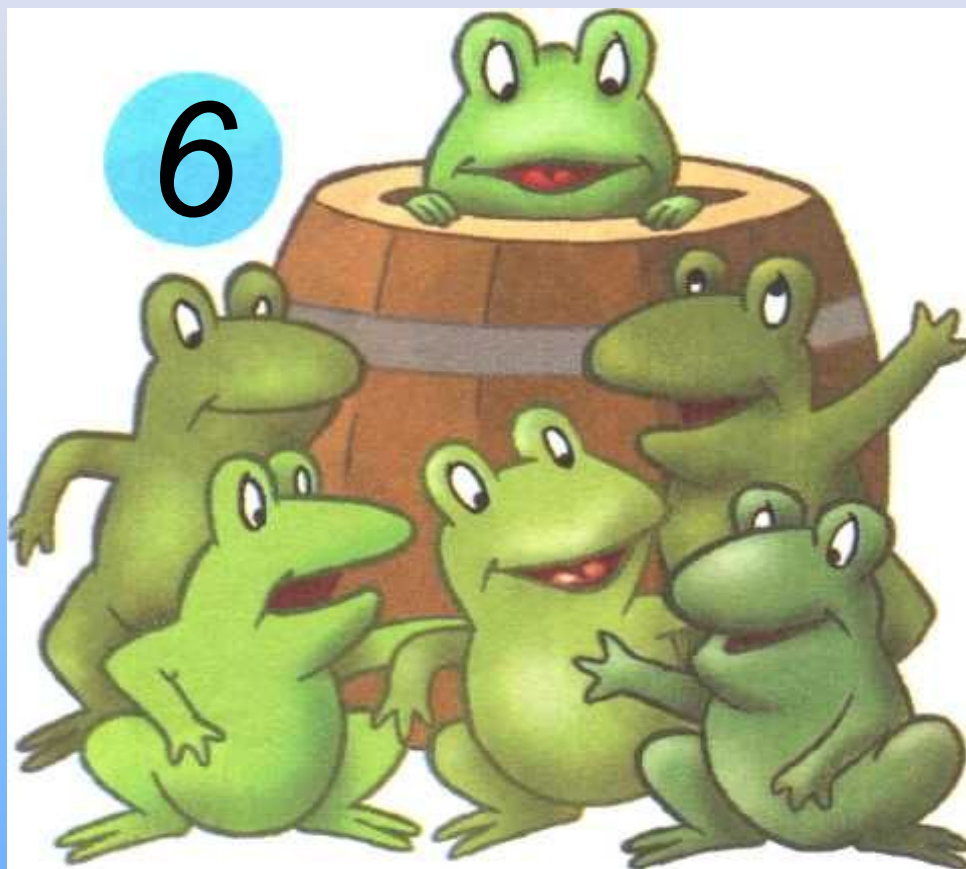

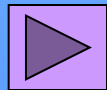

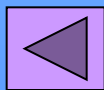

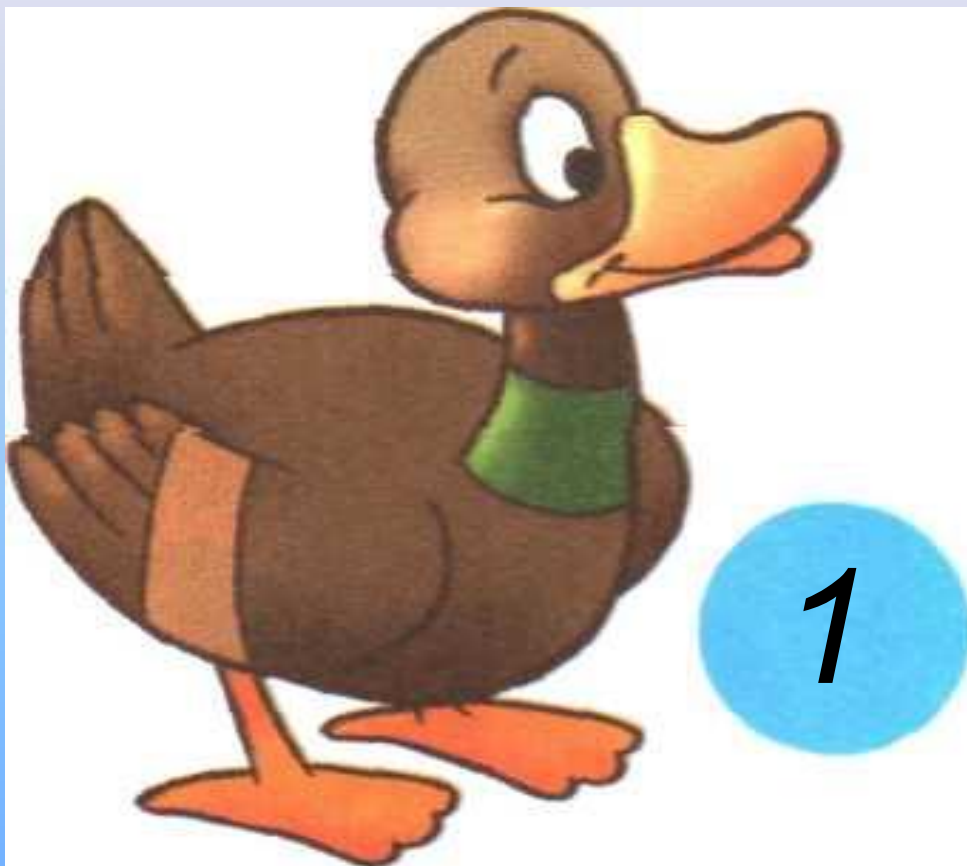

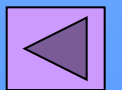

6

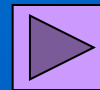

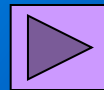

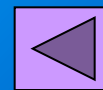

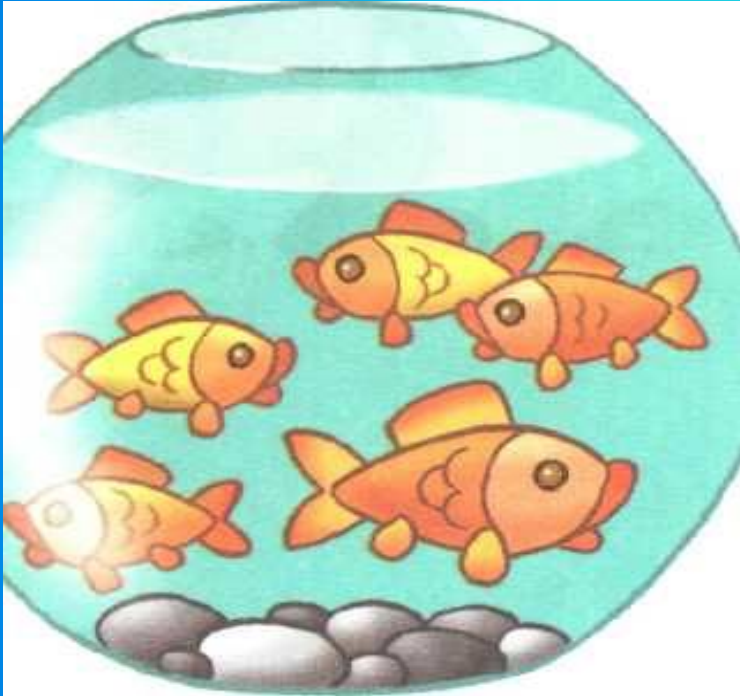

СРАВНИ

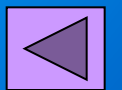

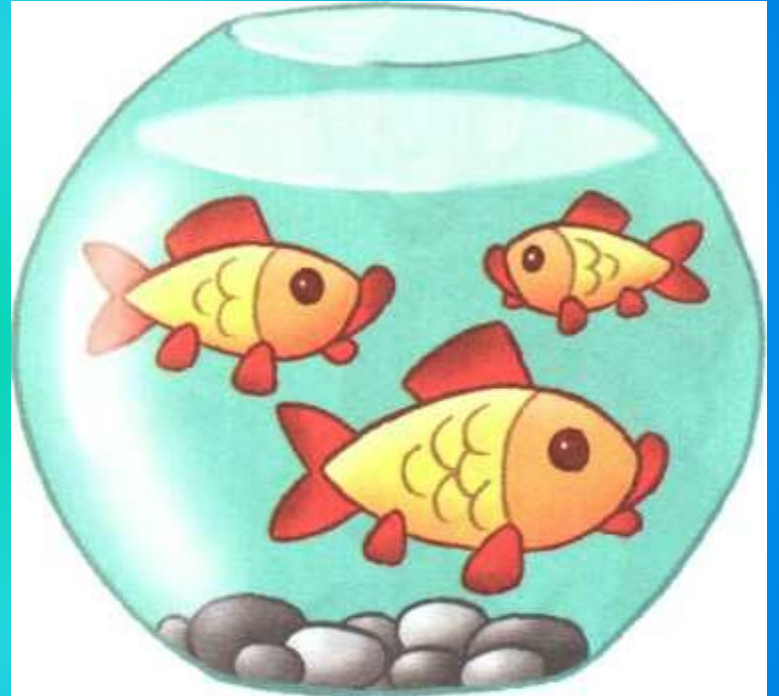

Покажи знаки: $<$ $>$ $=$

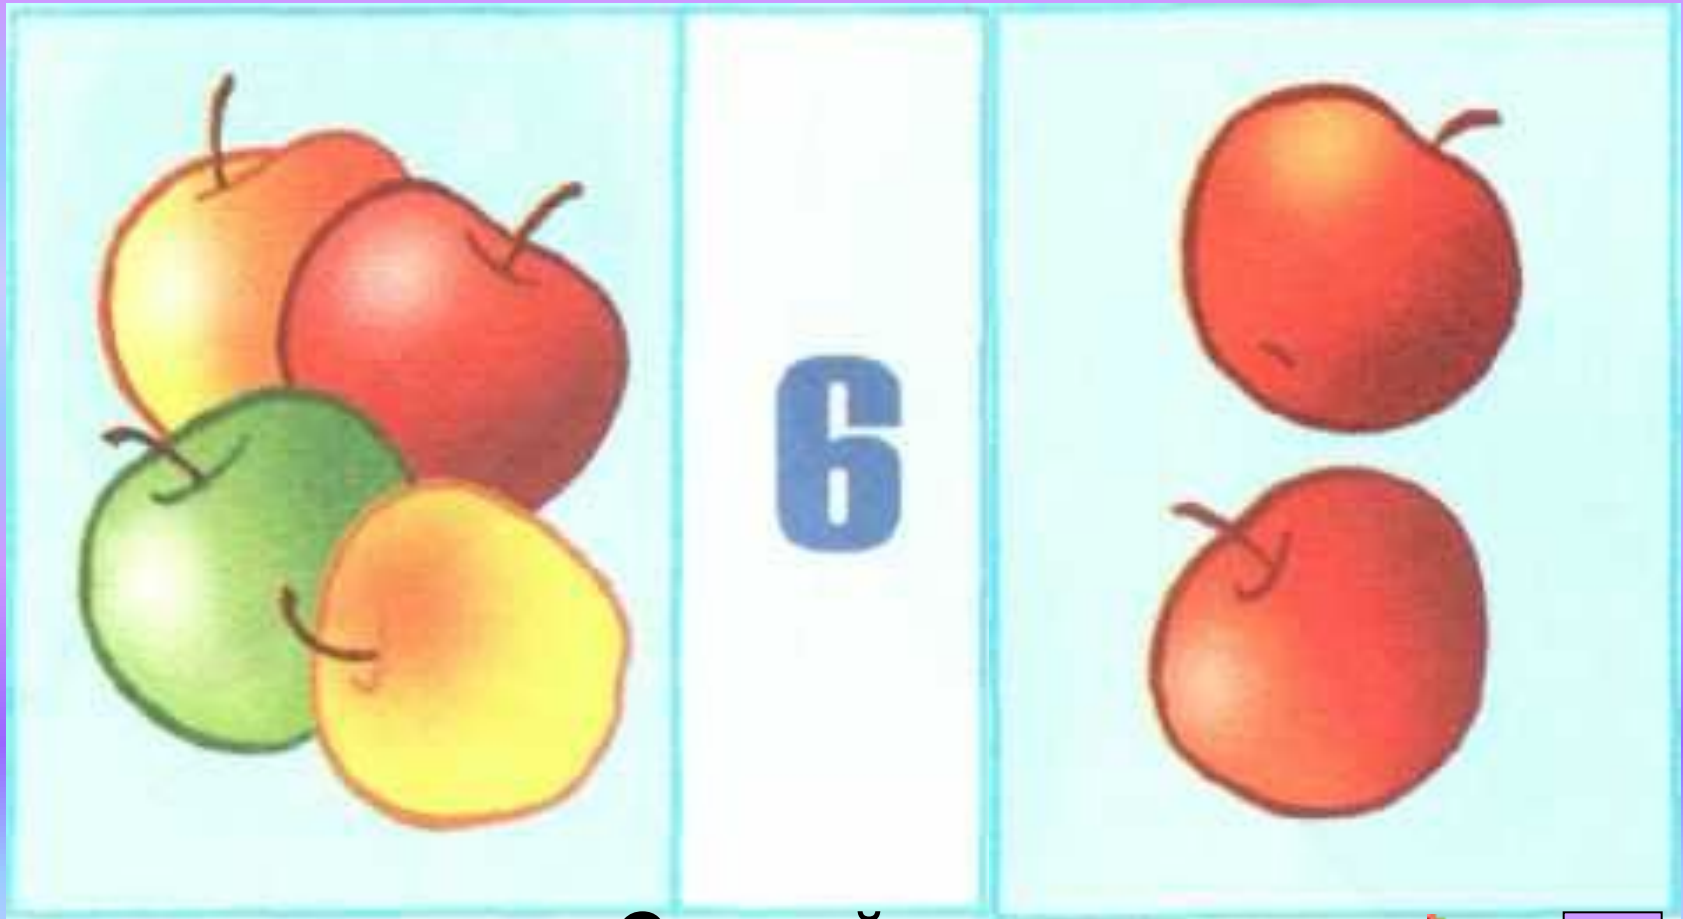

V

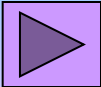

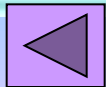

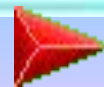

Состав чисел.

Сколько предметов нужно добавить,
чтобы получилось данное число?

Сделай вывод

2

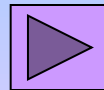

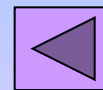

3

7

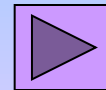

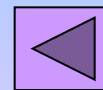

8

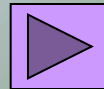

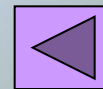

9

Составь пример по рисунку
