

$$7-3=4$$

$$8 - 2 = 6$$

Қосынды

The diagram shows the equation $3 + 2 = 5$ on a light orange background. A blue curly brace is positioned above the numbers 3 and 2. Three purple lines extend downwards from the equation: one from the number 3, one from the number 2, and one from the number 5.

$$3 + 2 = 5$$

The diagram shows a 10x10 grid with orange headers. Red arrows indicate a path starting from the cell at row 5, column 5 (value 10), moving down to row 6, column 5 (value 11), then right to row 6, column 9 (value 15), and finally down to row 7, column 9 (value 16). The cells at (5,5) and (7,9) are circled in red.
