Дорогой друг!

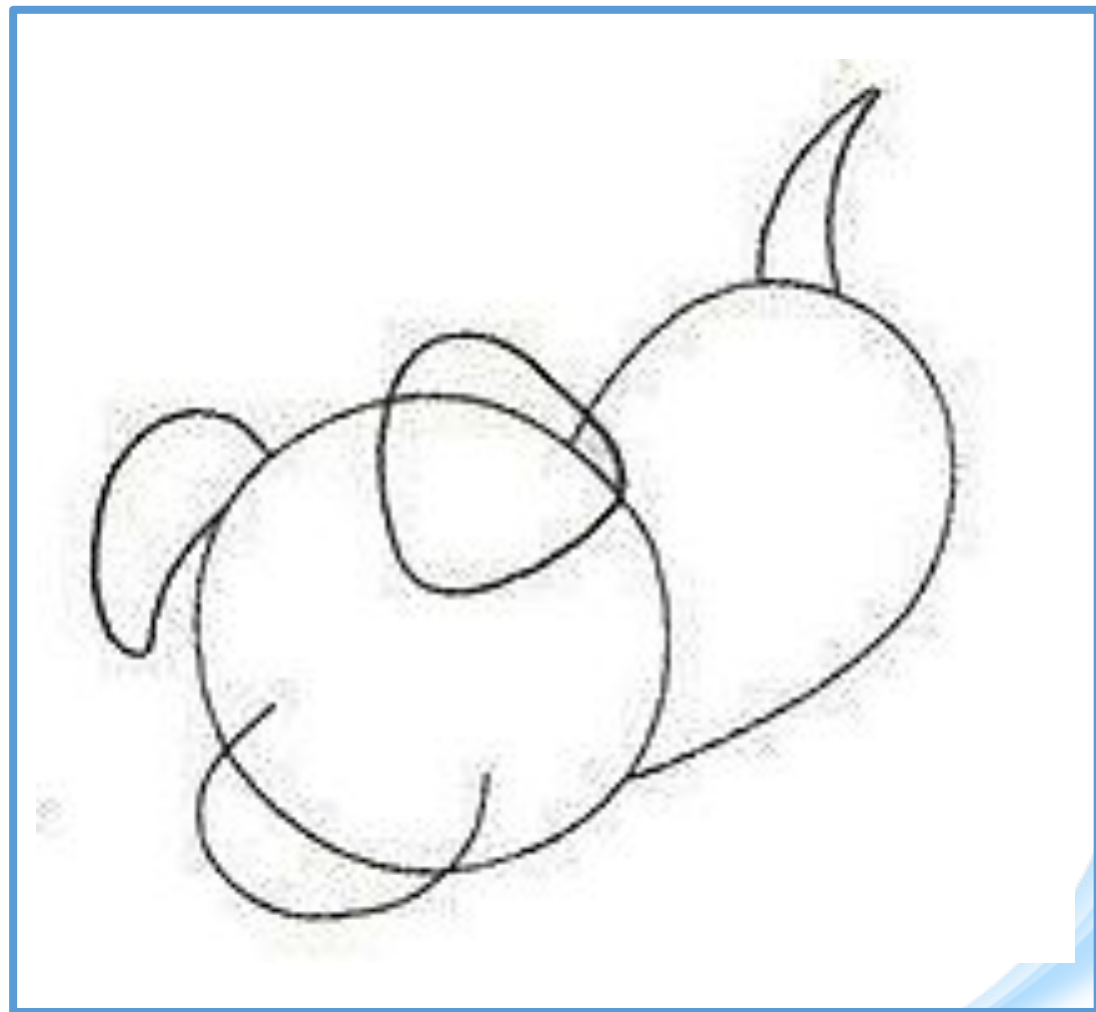

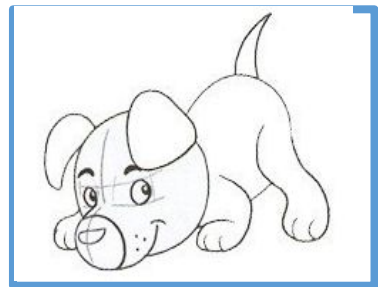

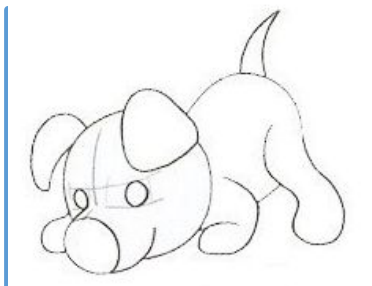

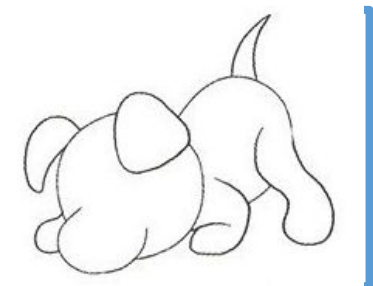

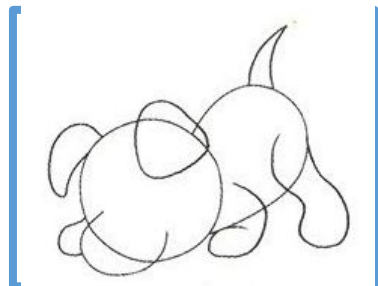

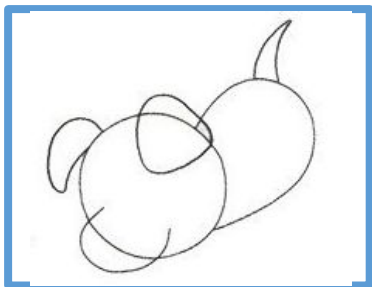

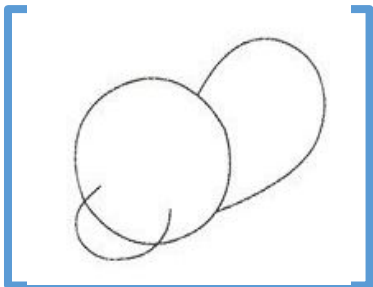

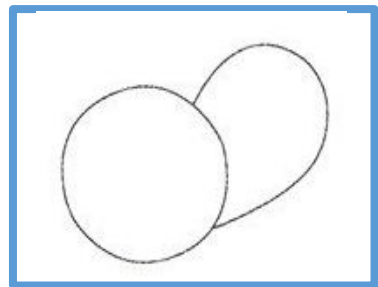

Не знаешь, как нарисовать щенка?
Не отчаивайся! Возьми в руки карандаш.
Помни, рисовать нужно плавно, легкими
штрихами, едва касаясь бумаги, так как
часть линий
у нас будет вспомогательными,
и в конце работы нам придется их стереть.
Итак, приступим к обучению поэтапного
рисования.

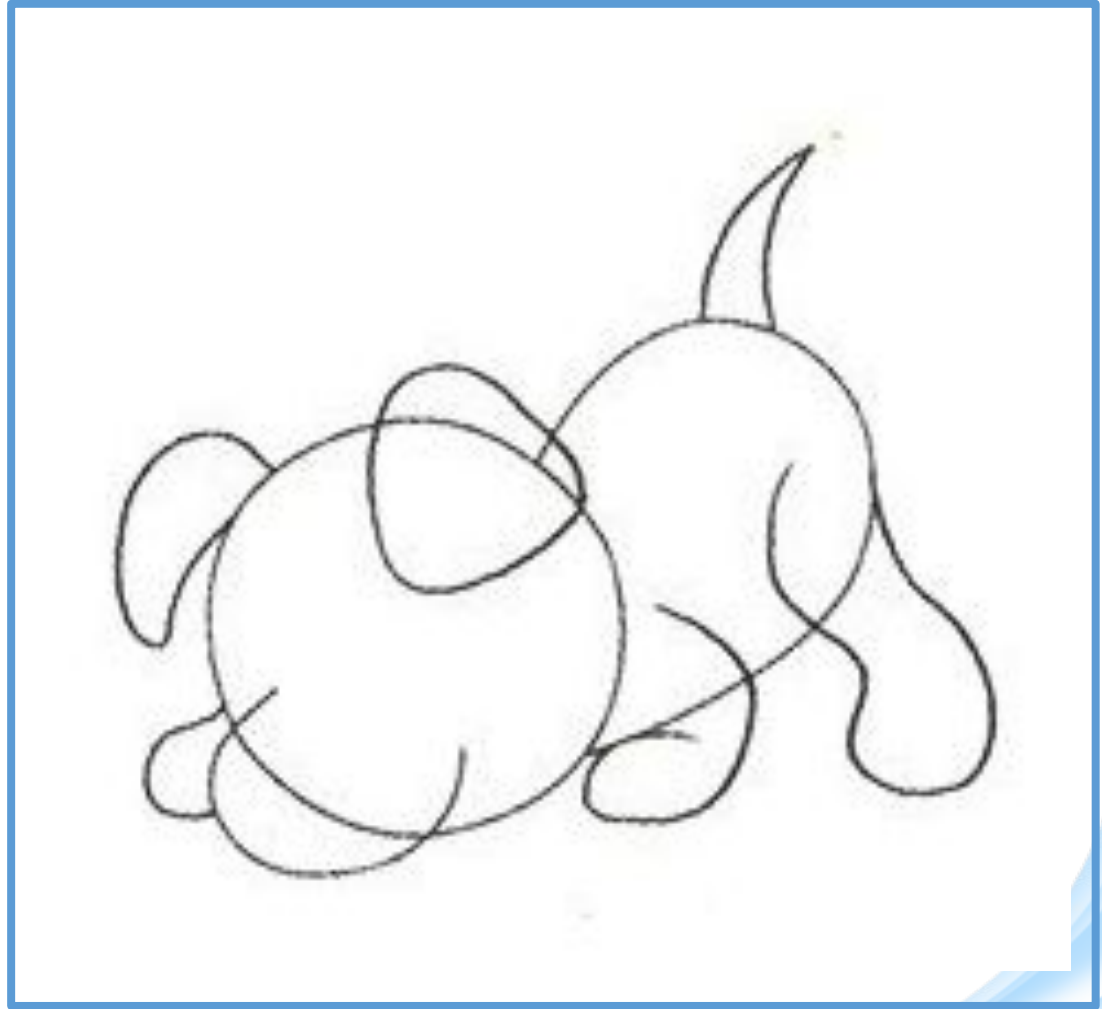

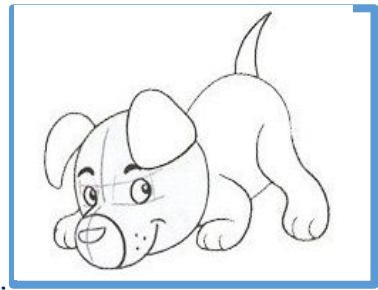

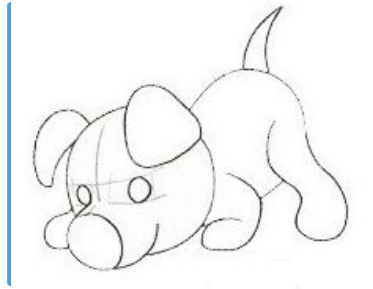

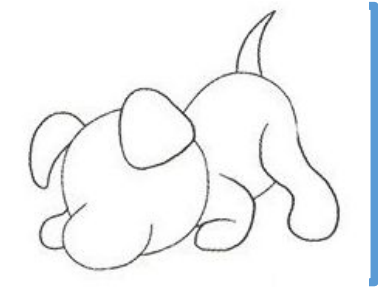

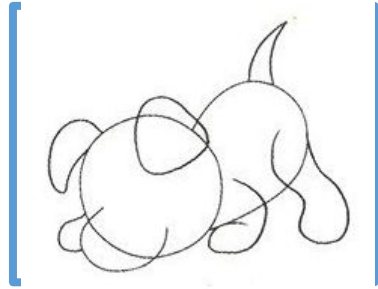

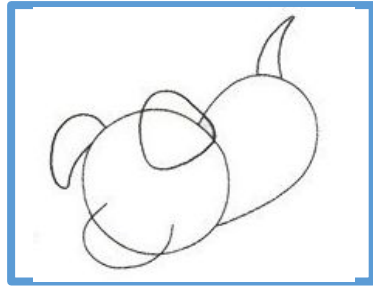

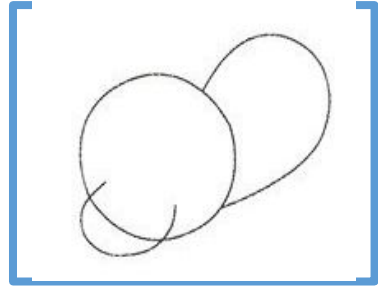

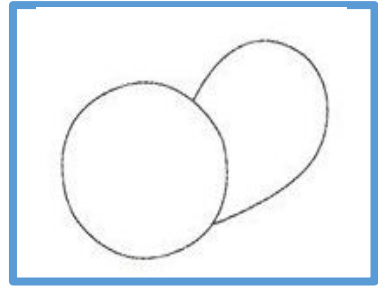

Для этого нажимай на маленькие
картинки и рисуй.

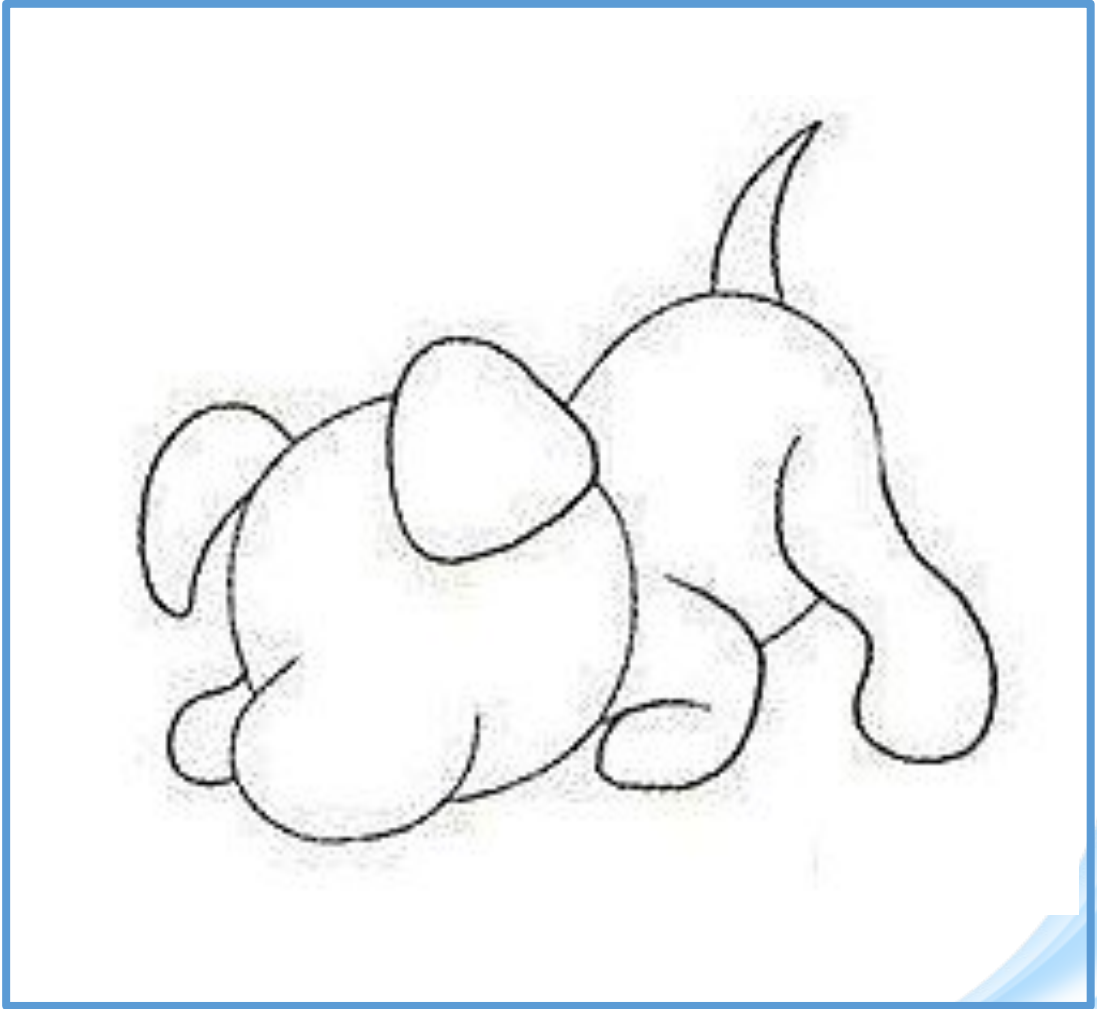

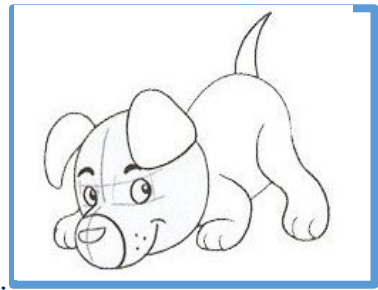

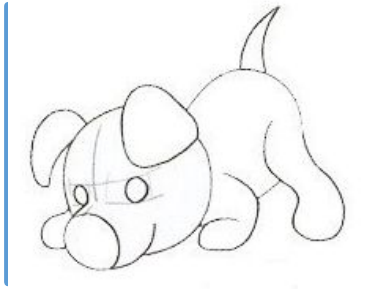

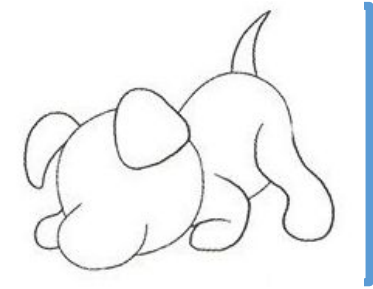

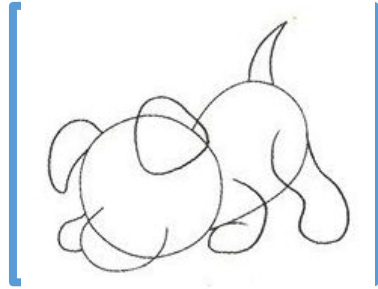

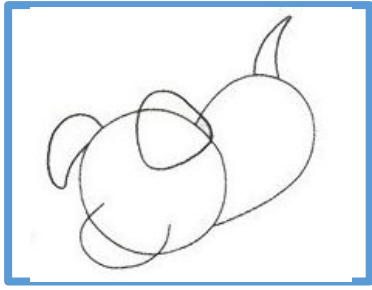

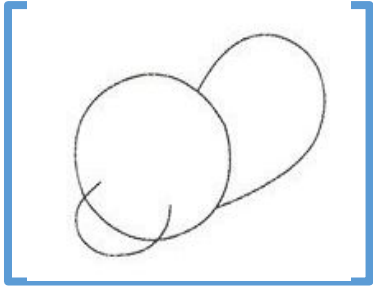

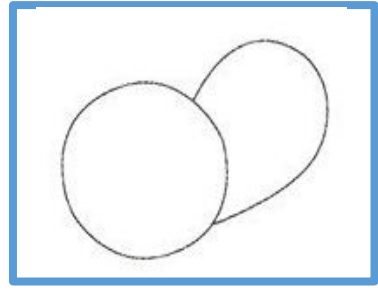

Желаю удачи!
