*illi novum aliquid, nec est motus verbus corpus
 sed qui ante in eo non fuit. Omnes autem, quae in
 ferri natura contingunt mutationes, ita sunt
 comparatae, ut si quid alicui rei accedit, id alteri
 detrahetur. Sic quantum alicui corpori materiae
 additur, tantum deum decedat alteri, quod non ad
 sum non impedit, sed idem verbum de trahere etc.
 Quae naturae lex cum sit universalis, deo etiam
 ad regulas naturae exhibetur. Comparationem, quae
 in suspensione ad motum excitat alteri, tantum
 de se auferat, quantum alteri a se. motu super-
 fit. Agitur si corpus legens, motus, qui verbus corpus*
