Dinosaurs appear

Mother dinosaur sat and protected the nest. Next some days from eggs hatched some kids.

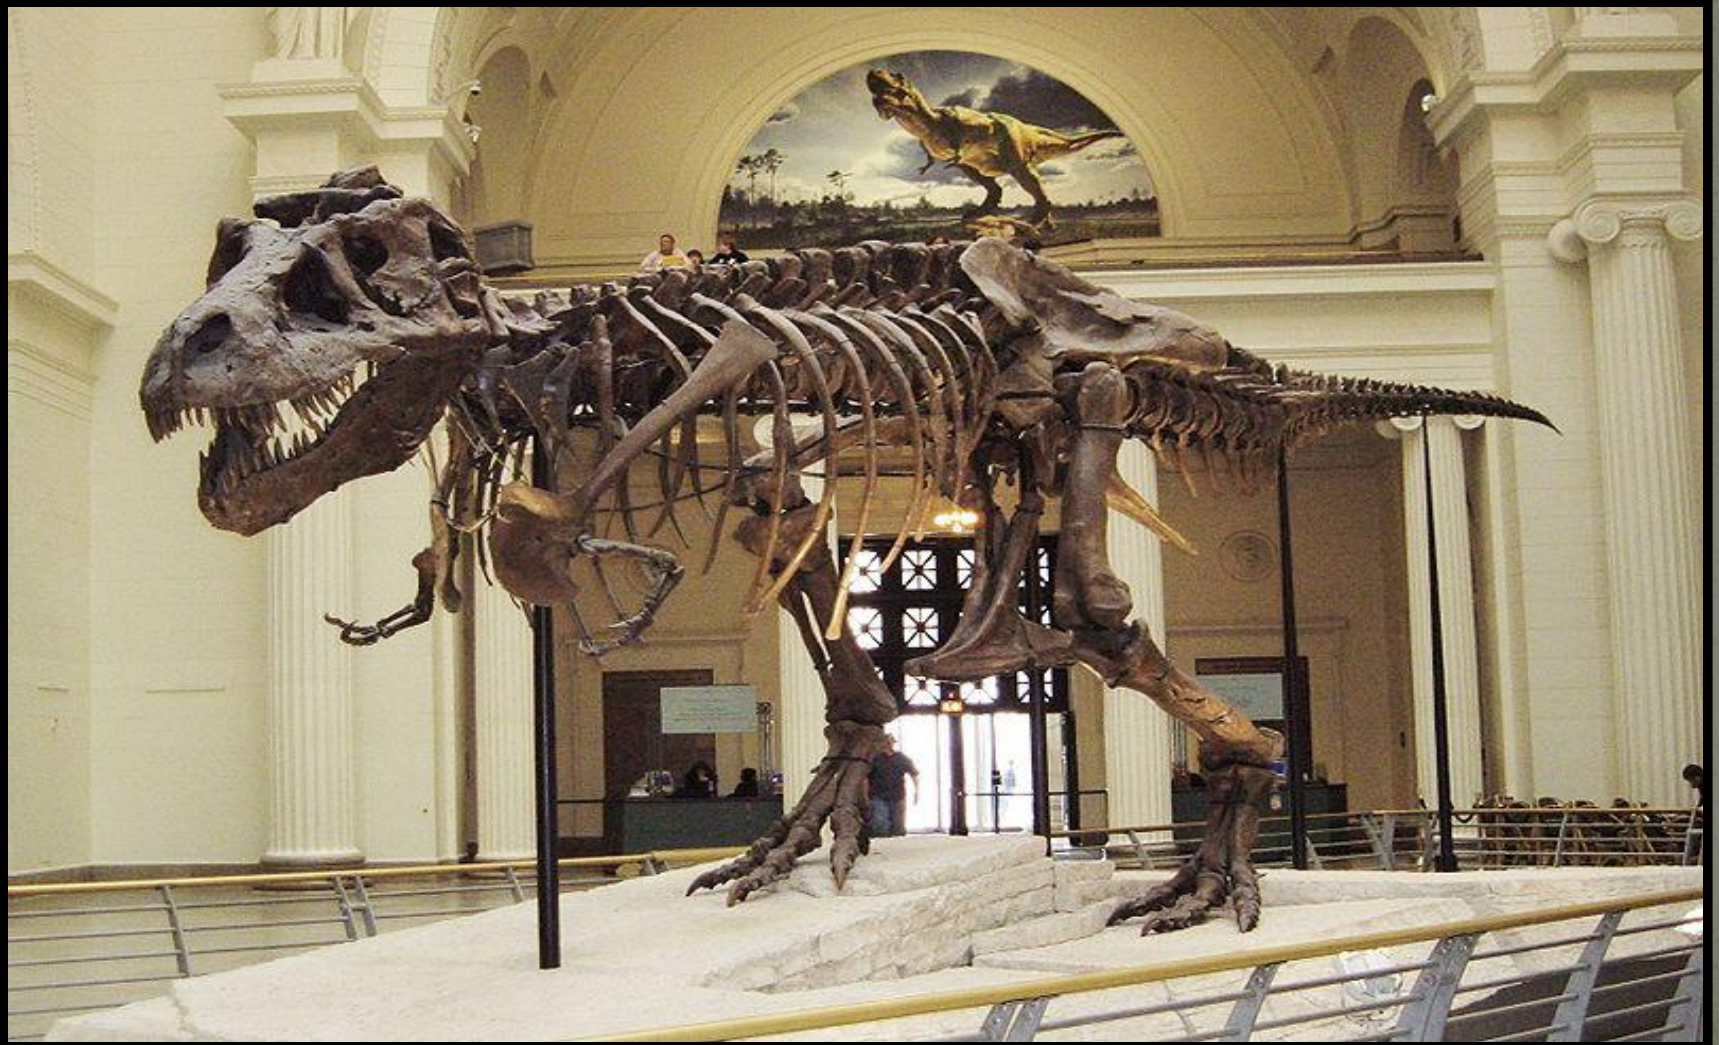

It is long many eggs reached tow meters.

TYRANNOSAURUS REX

The most famous dinosaur was the T-Rex. It was 14 metres long and 5.5 m high: bigger than a house! Its strong tail helped it move quickly. But no one knows how fast it could run.

SKELETON OF THE T-REX

Life in the sea

FOSSILS OF CARNOTOURUS

Карнотавры

Already in the Cretaceous South America, and habitat карнотавров, was the separate continent of dinosaurs there a shlasvoy way.

Dinosaurs disappear
